

# Working Title: Blood of Evaal

Three centuries ago, humanity tore itself apart during the Great Human Wars. The old Gods of Evaal had forsaken their people, leaving their world to bleed dry. The cries of the dying echoed through the void unanswered, until they finally reached an ancient race—the Vanori.

Unable to ignore such suffering, the Vanori, led by their seven Gods, abandoned their world and descended upon Evaal to save humanity. But not without devastating sacrifices.

At least, that's the story Aurelia and the citizens of Evaal have been taught.

Raised within the palace of the Supreme God, Aurelia and the other Ladies of Sanctum have spent their lives preparing for their Sacred Unions. Bloodlines shaped by divine hands have created generations of women meant to fulfill their ultimate purpose: bearing Bloodborne children. These Vanori-human offspring are the future of Evaal.

On the night of her twenty-second birthday, Aurelia is summoned by one of the Gods himself.

But as she embraces her new life as the wife of a God, filled with luxury, power, and freedoms unknown, the scars of her realm split open. Secrets hidden beneath centuries of lies claw their way to the surface, threatening to shatter the fragile peace of Evaal and destroy everything she loves.

Aurelia must find the strength to survive the truth.

Because if she fails, it isn't just her own fate that will burn...but Evaal's.
