The Association for Play Therapy (APT), American Counseling Association (ACA), and National Board for Certified Counselors (NBCC) all endorse inclusion of guidelines of web-based applications and virtual supervision. In Alabama, specific licensure requirements for supervisors have changed. In this training, play therapists, mental health providers and graduate students in mental health programs will have opportunities to meet the requirements using a variety of hands-on interactive methods and break out groups exploring Play Therapy in Supervision (virtual & face to face) and other relevant standards (ACA, NBCC). The Therapeutic Powers of Play, Play Therapy Competencies, Play Therapy Best Practices, The Paper on Touch, Ethical Considerations for Implementing Telemental Health in Play Therapy, and Ethical Considerations on Incorporating AI in Play Therapy will be included in the presentation. Although the focus of this workshop will be on providing resources for Play Therapy in Supervision (both virtual and face to face); many interventions can be adapted for use in all states with clients, families, and various populations.

LEARNING OBJECTIVES: Upon workshop completion, participants will be able to:

1. List 3 ethical issues of Telemental Health (Virtual) Counseling in Play Therapy Supervision and other relevant standards (ACA, NBCC).
2. Identify 3 examples of Telemental Health (Virtual) Counseling in Play Therapy Supervision
3. Discuss the relevant core agents in the Therapeutic Powers of Play for Play Therapy Supervision
4. Explain 3 ethical issues for Supervision in Play Therapy and other relevant standards (ACA, NBCC)
