

iPads at Nazareth

- Nazareth students will bring a family-owned iPad with them to Nazareth. Devices are not owned by or leased through Nazareth.
- Prior to Freshman orientation, students will bring their device to Nazareth for a digital onboarding session. At that time, their iPad will be set up as a managed device in Jamf School.
- At the digital onboarding sessions, students will also receive WiFi access, their Nazareth Google credentials and all necessary applications. (Note: Students taking the Summer Academic Program or the Technology at Nazareth course will not require a device registration meeting.)
- If a student's iPad has previously been used, it will need to be factory reset during these meetings. Please back it up prior to the onboarding session.
- While at Nazareth, students are responsible for care, updating and maintenance of their iPad.

iPad requirements and recommendations

- **Storage:** We require a minimum storage of 128G.
- **Size:** Any size iPad larger than the "iPad mini" The mini devices have proven problematic for students trying to split screen, use certain apps or read for an extended time.
- **Model:** There are numerous options and students have success with a range of models. Please see below for two recommended packages. Note: It is not necessary to opt for the Pro or Air models.
- **WiFi only:** We recommend WiFi-only iPads. If a student uses their iPad on a cellular network during the school day, Nazareth's school WiFi network protections and restrictions are ineffective.
- **Accessories:** A keyboard and stylus/ApplePencil are required. We recommend keyboards that charge automatically off the iPad, rather than a separate charger.
- **AppleCare+:** It is our strong recommendation that a student's iPad is protected via AppleCare+.
- **iCloud storage:** We recommend opting for more than the 5G of storage that comes free with an AppleID. This can be purchased at a later date.

iPad and Accessory suggestions

Listed here are two suggested iPad set ups that would definitely work for a Nazareth student:

- iPad, 128G Storage, WiFi only, Apple Pencil (USB-C) - Approximately \$430
- iPad Air 11", 128G Storage, WiFi only, Apple Pencil (USB-C) - Approximately \$670

Keyboards

- Apple's line of Magic Keyboards (from \$249)
- Logitech Folio or Combo Touch keyboards (from \$99)
