

Grade: 2nd **Topic:** Subtraction Fluency within 100 (NC.2.NBT.5)

Key Vocabulary:

fluently: being able to solve addition and subtraction equations and story problems efficiently and accurately

difference: the result of subtracting a number from another number

place value: the value of a digit which is determined by its place in a number

base ten: a system which uses the digits 0-9 in various places to create numbers

hundred chart: a visual representation of the numbers from 1-100; arranged in columns to see the progression of 10s and rows to show the progression of 1s

commutative property: numbers can be added in any order, even when decomposed

decompose: break down numbers into parts

number line: a line marked with numbers to use as a visual representation of computation

friendly number: a number that is easy to work with; usually a multiple of ten

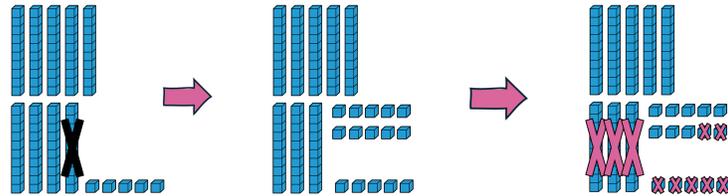

Key Ideas:

Students must be able to choose effective strategies to fluently subtract to find differences within 100 in order to develop skills for subtraction within 1,000.

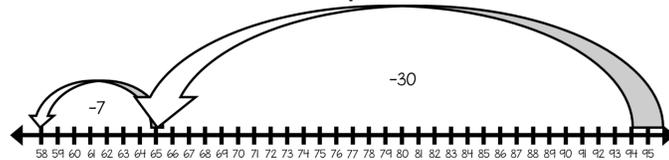

Strategies based on place value:

$$95 - 37 = \square$$

Using base ten blocks

Subtracting 10s and 1s separately (using a number line, a hundreds chart, or as equations)

1	2	3	4	5	6	7	8	9	10
11	12	13	14	15	16	17	18	19	20
21	22	23	24	25	26	27	28	29	30
31	32	33	34	35	36	37	38	39	40
41	42	43	44	45	46	47	48	49	50
51	52	53	54	55	56	57	58	59	60
61	62	63	64	65	66	67	68	69	70
71	72	73	74	75	76	77	78	79	80
81	82	83	84	85	86	87	88	89	90
91	92	93	94	95	96	97	98	99	100

$$95 - 37 =$$

$$95 - 30 = 65$$

$$65 - 7 = 58$$

Using a friendly number

$$95 - 37 =$$

$$95 - 30 - 7 =$$

$$95 - 30 - 5 - 2 =$$

$$65 - 5 = 60 - 2 = 58$$

Relationship between addition and subtraction:

Rewrite a subtraction equation as an addition equation and use the above strategies to solve

$$95 - 37 =$$

$$37 + \underline{\quad} = 95$$

Sample Problems:

$$92 - 48 =$$

$$81 - 18 =$$

$$76 - 52 =$$

Note: The standard algorithm for addition and subtraction is not expected until 4th grade. This is not a strategy that students will be using in 2nd grade.
