

Subject: Survey: student perceptions of GenAI in online courses

Dear students,

Please consider taking part in a survey to help online writing instructors learn more about student perceptions of Generative AI within online courses. This survey may help inform the development of curriculum, resources, or professional development opportunities for faculty and students teaching and learning online, and it will contribute to broader knowledge about how GenAI is shaping online writing and literacy education. The survey is anonymous, and your instructor will not have access to your survey responses.

The survey is linked below, and it should take no more than 10 minutes to complete.

You must be 18 years of age or older, a U.S. college student, and have been enrolled in at least one asynchronous online course in the past year to participate in this study.

Thank you for supporting this research by sharing your perspective!
