

Teen Drawing Club

This is a club where teens, 7th through 12th graders, can meet together, have fun, and share their art! Being part of an art community makes it a lot more fun and easier to create illustrations as well as any other kind of art. There will be plenty of activities that students can participate in, if they choose to.

The first meeting will be in Ms. Peachy's live lesson on Tuesday, February 7th at 5:00 PM. Afterwards, future meetings will be held in the Discord server. The first meeting will go over activities, meetings, rules, questions, and how to use Discord to join the server.

Activities include:

- **Study Sessions**

In the learning sessions, the group (or groups) will spend time studying and drawing images such as portraits, backgrounds, perspective, animals, and more. Feedback and constructive criticism is encouraged!

- **Doodle Days**

Everybody needs a break from studying, that's why students will get to doodle with others using separate canvases and even possibly one canvas!

- **Drawing Games**

Websites and games, such as Gartic Phone, can make drawing even more fun with friends! We will get to explore some of these SFW games.

What exactly does "drawing" mean for the Teen Drawing Club?

The "drawing" means that most of the activities and art will be drawn. There are a few exceptions, though. Examples of the art are listed below:

- Realism
- Cartoon
- Anime/Manga
- Backgrounds
- Perspective
- Studies
- 3D Art
- Sketches
- Traditional Art
- Digital Art

Since this is a school club, students are expected to follow the rules and avoid posting any NSFW content. The activities will be safe for all the students to participate in as well. **An important part in joining this club is Discord!** This is a website and app that anyone can use to communicate with others or groups. It'll make sharing art, talking, and meeting a lot simpler than logging into Live Lesson (although the first meeting will be held there).

We all look forward to meeting with you and seeing your art!
