How to download Tivimate app via downloader on firesticks

If you already have the Downloader App installed or using android box, skip to step 7

1. From the Home screen on your Fire TV Device, go to Settings at the end of the middle row.
2. Then go to My Fire TV, Press About, Press on Fire TV Stick 5-7 times until it says you are already in developer mode. Press back button once.
3. Then go to Developer Options, then make sure ADB Debugging is turned on.
4. Go to the Home Screen on your device. Go to the Find/Search function. On older firesticks it is located at the beginning of the middle row and then click on search. On newer firesticks, you have to press the three lines in the top left corner on the home screen and then scroll down to search/find.
5. Search for Downloader, Select the app Downloader, Download and install the app Downloader. Once app is installed press the home button.
6. Go to settings at the end of middle row on older firesticks or on newer firesticks, you have to press the three lines in the top left corner and then go to settings. Then go to My Fire TV. Then Go to Developer Options. Next go to Install unknown apps. Click on downloader and make sure it says ON.
7. Now press the home button and scroll down and open the app Downloader. (Downloader app can also be found at the end of the middle row)
8. Move the cursor to the top, in the box where it says enter a url or search term, type in **5400056** and press go.
9. File will automatically start downloading. After it downloads, go down and press install to install it on your device.
10. After it installs, press open. Click on Add Playlist. Next, click on Use Tivimate wizard and then Click on Server L. Now, go to the box that says Username, click on it and type in your username. Press enter/ok and then type in your password and press enter/ok. Now scroll to the right and click next. (Username & Password is located on all invoices and receipts from us and also located on welcome email if you signed up online.)
11. App will start processing. Wait for it to complete. When it says playlist is processed, scroll to the right and click on Done.
12. App will now load up and start at the tv guide screen. Once tv guide is up, you can press left on the circle pad on remote to bring up categories for other channels like sports, pay per view, news, movies, locals, etc. Press the channel once to preview it to see whats playing or press it twice to go full screen. You can press the back button to go back to the tv guide to change channels. You can long press the back button on the tv guide screen if you want to go back to the channel you were watching. While watching a channel you can press right on the circle pad to go to the previous channel. On the tv guide screen you can hold down on a channel to add to your favorites.

BONUS APP: Video on Demand

In the downloader app, type **2711621** to download a premium “Cinema HQ” movie and tv show app. Use your same Supreme TV Plus username & password to login or just put 1234 for username and password.
