Thank you so much for your interest in my Pride base, I worked really hard to include as many species as I could handle in the limited time I had and you can see the full list below with some previews as well of how they look!

- This pack contains 54 different creatures to choose from, a tutorial on how to resize without losing quality, and a tutorial on general use.

Frequently asked questions and rules

- Before anything, I want to mention that I encourage you to add, change, and play around with this pack as much as possible! You can change the expressions, add hair, and clothing, change the ears, the teeth, add paws, etc! Please have fun and enjoy it!
- *Tips are not needed but very much appreciated to help support my family this month! ;w;*

-How big are these icons?

Originally close to 500x500px but I have added a tutorial on how to resize them and restore the quality suuuper easily and quickly!

-What program/brushes do i need?

Any art program should work on any device! I used the binary tool that you can also find on any device!

-Can I sell ychs/commissions with this base?

No, and I will explain why. I spent days and nights working on this pack and I made sure to sell it as cheaply as I could, any cheaper and I'd be gifting my work and I sadly can't do that!

-Can I use this base to make my friends some pride icons?

Gift-giving is okay as long as you don't gift the blanks/PNGs or the pack itself.

-Can I use this base for other things than pride?

Of course! you can always play around with it and remove the flags or simply color in the flags with whatever you want! Maybe a TV show you support or an animal, maybe your country? Just have fun! But I will not take responsibility if you use it for political or harmful topics. Don't be surprised if I block you for that.

-I don't see my character's species, will you add more eventually?

I can't promise that and I'm sorry to say that I probably won't! I spent so many hours on this and I have more things to do and work on!

Nevertheless, many species in my pack can be tweaked to look like others if you try! The basic cat base can be turned into any feline (caracal, lynx, etc) The horse can be turned into a Kylin, Unicorn, kelpie, and so on. If you are having trouble editing the base you can always contact me on my streamings or send me an email and I'll try to help as much as possible!

-What if I don't want to buy the whole pack? I just want ''this'' species

You can ask me to purchase separates for $5 USD each!

List of species *(and some suggestions of the species they can be turned into with hard work and imagination!)*

Prehistoric

- Saber Tooth
- Parasaurolophus
- Raptor (I left it nakey so you can add feathers or anything! It can even be used as a Spino!)
- Oviraptor
- Allosaurus (can be turned into a t-rex or a Cerato as well as any other similar)
- Triceratops (or any similar)

Rabbit

- It comes with 4 different ear forms (can be stylized to become a feline, a canine, a sheep/goat, or whatever, the overall shape can be turned into anything really if you put your mind to it haha)

Felines

- Mountain Lion or Lioness (add a mane and it's a lion, add longer ears and it's a caracal or a lynx! Add cheek fluff, and some stripes and it's a tiger)
