AOM Enquiry Questionnaire :

> General parameters (provide this information for all AO products) :

Applications? Please give as much detail as possible!

Ans :

Laser or light source type?

Ans :

Wavelength or wavelength range (nm)?

Ans :

Polarisation state & direction?

Ans :

Beam diameter (mm)?

Ans :

Optical power (peak optical power density if application is pulsed (W/cm²))?

Ans :

SPECIFIC PARAMETERS :

> Specific parameters - Acousto-Optic Modulator (AOM) :

Rise-time?

Ans :

Analogue or Digital modulation?

Ans :

> Specific parameters - Acousto-Optic Frequency Shifter (AOFS) :

Frequency (MHz)?

Ans :

> Others :

Requested quantity?

Ans :

Do you need a RF driver? Module (VDC powered) or subsystem level (VAC powered) platform? Analog or digital modulation?

Ans :
