

**National Association of Student Affairs Professionals (NASAP)  
Student Leadership Institute (SLI) - Claflin University**

**Organizational & Same Title Tracks**

**Wednesday, May 27, 2026: 2:30 p.m. – 5:00 p.m.**

To help attendees navigate the Institute and find the content most relevant to their needs, knowledge, skills and educational growth, SLI has organized nine (9) tracks of learning.

Understanding the organization and its dynamics is critical for organizational success. You want to have a feel for and good understanding of how your organization works, and you also must have a firm grasp on processes, results, and outcomes if you want to progress within the system. When you understand the purpose of an organization, how it works as a system, and the roles of people in an organization, you make the most out of your own role, as well as prepare for other positions within the system. Be prepared to learn, listen, and leave with a toolbox of skills to take back to your organization. Please choose a track to follow for the morning.
