GUIDELINES

- **Rates are in USD (\$).** Payments can be done via PayPal or Ko-fi. For other modes of payment, please contact me about it!
- **No progress will be made until I receive at least 50% of the agreed payment.** If you wish to know more on what update I will be giving for your commission when only 50% has been paid, don't hesitate to ask me!
- **Record in a quiet environment and mind your distance from the mic.** Regardless of your mic, avoid singing in an echoey and/or a noisy room, as well as singing so loudly & close to your mic (causing clipping & distortion), to ensure the mixing will go smoothly.
- **Recordings must be in .wav format.** This is to ensure your recording is in its best quality when I begin working on it.
- **No parts should overlap in a track, not even breaths.** Double-check your files; there are no additional charges for splitting your lines when it's necessary.
- **Sort and label your files properly.** Make sure your lines are in the proper designation (e.g. no main vocal lines in a harmony track, harmony in a layering track).
- **Provide your own instrumental.** Let me know beforehand if you sang in a different key compared to the instrumental you've provided.
- **Compress all your files, including the instrumental, into .rar or .zip.** Alternatively, you may upload it on a file sharing site that allows me to download it as a zipped folder (e.g. Google Drive, Dropbox).
- **I reserve the right to reject a commission that I am uncomfortable working on.**
- **Please don't hesitate to check on the progress, especially if you've waited for more than a week!** I try my best to remember all my commissions but there are rare times that I have the update ready and forgot to send it over to you.

RATES
