Bernie Sanders - On Policy

How does Bernie plan to raise the **minimum wage** from \$7.25 to \$15 an hour?

Bernie Sanders wants \$15 / hr by 2020, so 5 years from now, which equates to ~\$12 / hr today. Likewise, Youth minimum wage would increase from \$4.25 to \$12 (\$3 below minimum), and restaurant and tipped workers would go up from \$2.13 (set in 1991) to \$3.15 immediately, and increased \$1.50 per year until \$15 is reached.

How does Bernie plan to pay for a **single payer healthcare** system?

The US already spends more per capita than Britain or France, because of poor negotiations, while consumer out of pocket costs are 5 times more. We're already paying for a single payer system, it's just the consumers aren't getting their cut. - How is this possible?? - - Total Per capita is \$8.7k US, \$3.2k UK, \$4.1k Fra. Gov Pays \$4.1k US, \$2.8k UK, \$3.2k Fr. - So the US pays MORE. However, Citizens pay \$4.5k US, \$0.6k UK, \$0.9k Fr. - So US Citizens pay \$3,500 more as well, by not having single payer.
