Health Wellness		
Eternal Wellness *	Chair massages and massage products	Part Time: every other week starting June 13th
Hannah's Herbals	Herbal health and wellness products including tinctures, teas, serums, and sprays. We never use chemical herbicides or pesticides, opting instead for natural insect predators (such as ladybugs) or food based inoculants such as raw milk. Ingredients that I don't grow myself (due to garden space and sun availability limitations - we are primarily a forested location) are sourced from reputable vendors and only certified organic (and fair trade when available) ingredients are used. Our packaging is recyclable and/or compostable as well.	Whole Season

Salem Soapworks	Handmade soaps. My entire line of soaps are made with milk for a luxurious and hydrating effect. Goat milk and buttermilk have been used for centuries as beauty aids. Milks restore and rejuvenate the skin due to the alpha hydroxy acids they contain. Goat milk and buttermilk also contain fats, as do all milks, so your skin will never be dry. Coconut milk is used in my vegan soaps. Your skin will definitely thank you after experiencing the creamy feeling of these soaps on your hands, face and entire body. Approximately 90% of the oils and butters used in my soaps are organic. Once you try handmade soaps you will definitely notice a difference and will be totally spoiled.	Whole Season
Artists (no more than two each week)		
AcMetalworks *	Farm fresh, organic non GMO eggs and handmade Jewelry using only recycled metals, nothing newly mined.	Guest: 6/20/16 7/25/16, 8/22/16.
