4.0 PRINCIPAL'S REPORT

Discussion

[Principal's Report to BOT hui 1 T3 2022](#)

Ongoing h&s of the road - hoping to hear more before Christmas as to what will be done to make the road outside the school safer.

Near miss at the crossing this morning, a driver was travelling too fast and almost hit the pole which was out.

3 injuries of note requiring external medical attention. Only one resulted in a hospital visit.

Lockdown practice conducted, alert system is now active. The school office is the activation point. Audit went really well. Detailed report to be received from our independent reviewer.

Physical restraint - one required physical restraint since the last meeting. Reports have been completed.

Roll has increased by 19 since the last report. This puts us on track to retain our current staff funding.

Room 18 has a temporary teacher until the new teacher arrives from the UK.

Attendance data is still being influenced by Covid isolation periods.

Health and wellbeing PD has been conducted with staff members. Staff are reminded to look after their mental wellbeing.

Community survey results have been returned, a lot of information to be worked through, next steps are being developed to address some of the more concerning results. Melody will be sharing the data with the remainder of staff as part of a collaborative effort to remedy some perceived problem areas.

Student achievement and engagement - data and action plans have been provided to the Board. Reports to be staggered over the coming meetings to prevent overload.

Midyear data - confident that the current mid-point data is valid and accurate given the disruptions over the past couple of years. Teams are trying new learning strategies with their students including mixed class groups for different subjects. Progress for students to ensure that all students are making progress in their learning.

Rooms 11 and 12 have been delayed another 6 weeks.

Drainage by the hall is becoming an issue. This has only developed since the building of the satellite school. Assessment has been conducted but needs to be followed up.

Proposed dates for next year have been pencilled in, this includes teacher accord dates which are to be confirmed once staff have met to discuss.

Mask wearing - school needs to make a decision on what policy will be adopted. Air purifiers have been provided to the school from the Ministry and have been placed in high traffic areas. Masks for staff will remain a requirement, remainder will be strongly recommended.

Proposal that mask wearing indoors from week 5 be strongly recommended for students and compulsory for staff.
