The Worse Fictional Levels List

Owned by kachan

Rules

- Well, your level has to have a goal. That's basically it.
- It can be physically possible, theoretically possible, mathematically possible, or physically impossible.
- It doesn't have to be based around GD. It can be based around anything. Even different games.
- The goal can even be that everyone beat it x time units ago.
- You can use more than 20 characters and use special characters in the name. _{kachan was here "fuck you" -Epic Toast6 wqbxy -nobodrr}
- No NSFW in video submissions.
- If two levels make you beat each other, the one where you beat the other more is harder.
- Values for numbers must exist. You can't have "click x times" unless you define x, even if the value for x doesn't make sense.
- for femboy gaming only n = Ω

Legend

- Highlighted - Annotation/More Information
- ! - Creative/Innovative Levels
- ? - Levels that are either represented in a creative way or were created in a creative way
- … - Levels that are lazy or bad
- fll(goal a, goal b) = how many times you need to beat goal a for it to be harder than beating goal b, if a name is used for 2 goals, do goal^{creator} (or goal^creator), and if a creator has 2 goals named the same thing, do goal^{creator,N} where N is which goal it is, first goal is 1, second is 2, etc. (acronyms work)

List

4. NilGaming lost FLL list access because they closed the list so I guess we will be in WFLL now (thanks epic toast for something to do.) by NilGaming || Goal: _{define a system where 0 is the easiest in the list (if said list has Danger Numker easy levels.) and 1 as the hardest level in the list (if said list had Danger Numker hard levels) 2 is beyond 1's}

level list entirely, unreachable from 1. 3 is from 2, bla bla bla. Same with the negatives, but below instead of beyond. Then, beat Danger Numker while losing

14. *The Increasing Limit* by Epic Toast || Goal || !
15. **UNIMAGINABLE** by zenit || Goal: This goal is unimaginable. This mean what you can't imagine, mind or just understand all the goal's difficulty. You can't do this even infinitely near. Because this will mean what you somehow understand little part of level. And the goal, what you can't imagine, would be fully reconstructed and will become even harder and unimaginable. You can't change goal by any way to make it's difficulty imaginable or beatable. You can't understand goals difficulty by any way, even with limitless defintions. This above human, or someone, understatement. || !
16. The night crawlers (New top 1) Pointercrate demon (You will never complete) by ChesterTheMouse and Grant || Goal || !
17. Slaughter Water by ChesterTheMouse || Goal || ? …
18. most boring wfll level by kachan || Goal: you know "boring wfll level" series, and you know that something "most" can't be possible in universe with infinite amounts of items and definitions, so you need to enter that universe and make this level really "most boring wfll level", that means it must be hardest level in that series, and as can you see (at moment when this level was added) levels from that series are in the highest positions, so it will become another top 1. ||
19. maybe most boring wfll level by kachan || Goal: this goal is peak^Cheezfinity of difficulties (Cheezfinity= ABSOLUTE CHEEZ-IT^ABSOLUTE CHEEZ-IT(repeat ^ABSOLUTE CHEEZ-IT ABSOLUTE CHEEZ-IT times)) ||
20. even more boring wfll level by Epic Toast || Goal: this goal is peak^ABSOLUTE CHEEZ-IT of difficulties

22. boring wfll level by Epic Toast || Goal: this goal is peak^CHEEZ-IT{CHEEZ-IT}CHEEZ-IT of difficulties ||
23. **ABSOLUTE DONG** by kachan || Goal: this goal is peak of peak of peak (repeat peak cheezillion times) of any existing and unexisting difficulties, and the goal is not any, you need to guess it but you will never do it cuz it contains idk how many steps. ||
24. ***Destiny Of Eternal Violence*** by femboy gaming || Goal: the goal is defines like a peak of peak of any difficulties and forces you to did it, the peak is can't be as exact goal cause it can be in any form. ||
25. Escape from Huggy Wuggy in minecraft Obby || Goal: this level is ballistic-undefinded, the goal isn't exists cause isn't performable to text or something else, the goal is exclipting your mind to perform that in a level, define this goal's difficulty is harder than the actual goal.
26. :epic_troll: by kachan || Goal: become enough IQ to break peak of the difficulties and do goal harder then Tower of Cruel Punishment, and after that beat that goal.
27. **Tower of Cruel Punishment** by kachan || Goal: this is standart level that uses beat this level in any way to make it top 1, but, the goal harder than it will never exist, if you will make goal like "beat Tower of Cruel Punishment 2 times" it will transform into one because its peak of the difficulties, and you can't do like "break Tower of Cruel Punishment rule, make something harder than it and beat it" it will always translate into this level. Oh yeah, also beat Tower of Cruel Punishment in JTOH while you beating this. || !
28. Concept-less by Cadalac9000 and Exernity || Goal: Nothing, Imagine it was a placeholder of a concept Anything or anyone describing how hard it is would not count Its like a placeholder for something that none of us can imagine. Something that could be the hardest thing No one would simply be able to describe the placeholder. It would be left empty, Let the one with the power to control it define it their selves Someone who is beyond the logic we are in. || !
