

Golden Bell of Blasting

(from "Needle". Addendum by DM Superelf.)

This bell has a 3" handle and a 2" tall cup. It is made of solid gold, with a golden clapper. When rung, a small, gem-like object (apparent value 1,000 gp) falls from inside it and explodes three rounds later in a 6d6 *fireball* unless the bell is placed over it. This action merely delays the *fireball* until the bell is again picked up.

(DM Superelf Note: The bell can be rung and can have a fireball gem fall out of it once per day.)
