Jenks Students Win Prizes in C-SPAN Video Documentary Competition

Students express how the federal government impacts their lives

WASHINGTON (March 16, 2022) – Today C-SPAN announced that students at Jenks High School in Jenks, Oklahoma, are winners in C-SPAN's national 2022 StudentCam competition. The following students have won prizes:

Lauren Cargal, Sophia Smith and Jacob Shaddock will receive \$1,500 as second prize winners for the documentary, "The Threat of Tomorrow," about cybersecurity policy. This documentary will air on C-SPAN at 6:50 a.m. ET and throughout the day on April 12.

Kate Pinnell and Analicia Wilde will receive \$1,500 as second prize winners for the documentary, "Milking the System," about checkoff programs. This documentary will air on C-SPAN at 6:50 a.m. ET and throughout the day on April 4.

Olivia Graff and Rachel Oakes will receive \$750 as third prize winners for the documentary, "The ACA is Here to Stay."

Gabriel Tiong will receive \$750 as a third prize winner for the documentary, "Program of Violence," about the Covid-19 Hate Crimes Act.

Emma Whelan will receive \$750 as a third prize winner for the documentary, "Oklahoma's Wealth, America's Health," about the oil and gas industry in Oklahoma.

Emma Reilly and Avani Chandwaney will receive \$250 as honorable mention prize winners for the documentary, "Keep Calm And STEM On," about the National Science Foundation and its impact on the local community.

Jolie Abdo and Rori Johnson will receive \$250 as honorable mention prize winners for the documentary, "Barred," about immigration policy.

Chase Venable will receive \$250 as an honorable mention prize winner for the documentary, "Lab Rats for a Cause," about vaccination mandates.

The competition, now in its 18th year, invited all middle and high school students to enter by producing a short documentary. C-SPAN, in cooperation with its cable television partners, asked students to explore a federal policy or program and address the theme: "**How does the federal government impact your life?**"

In response, more than 3,000 students across the country participated in the contest. C-SPAN received over 1,400 entries from 41 states, Washington, D.C., Morocco and South Korea. The most popular topics addressed were:

- Environment & Pollution (10%)
- Health Care & Mental Health (9%)
- COVID-19 & Recovery (7%)
- Immigration (5%)
- 2nd Amendment & Firearm Legislation (4%)

"This year we asked students to reflect on how a federal program or policy is relevant to their lives and communities," said Craig McAndrew, director of C-SPAN Education Relations. "The winners showcased exceptional research and production values as they wove personal stories with historical or contemporary issues. These middle and high school students far exceeded our expectations, and we are elated to share their hard work with the country."

C-SPAN is funded by America's cable television companies, who also support StudentCam. In Jenks, C-SPAN is available locally through Cox.

More than 300 students from across the country are winning a total of \$100,000. C-SPAN is awarding one grand prize, 4 first prizes, 16 second prizes, 32 third prizes and 97 honorable mention prizes. These winning videos will receive cash awards of \$5,000, \$3,000, \$1,500, \$750 and \$250, respectively.

High school students competed on a regional level, with the United States divided into three regions: West, Central and East. Middle school students were judged on a national basis. The grand prize winner was selected nationally among all regions and grade levels.

The 150 winning videos can be viewed at www.studentcam.org and may be used in a broadcast with attribution to C-SPAN. To schedule an interview with one or more of the winning students, please contact Pam McGorry at pmcgorry@c-span.org.

The annual StudentCam competition is sponsored by the C-SPAN Education Foundation. Videos were evaluated by a panel of educators and C-SPAN representatives based on the thoughtful examination of the competition's theme, quality of expression, inclusion of varying sides of the documentary's topic, and effective incorporation of C-SPAN programming.
