Fall 2026: Relentless Effort, Lasting Impact

What an exciting fall for Clinton Public Schools Athletics! Our student-athletes demonstrated dedication, resilience, teamwork, and pride in representing Clinton High School and Clinton

Middle School. The season was about more than wins and losses: it was about growth, relationships, leadership, and community.

265 student-athletes participated in fall athletics, continuing strong involvement across our programs.

Clinton Middle School expanded opportunities with a new field hockey program.

Girls cross country increased participation and developed into a scoring team.

Coaches across programs emphasized development, accountability, and opportunities for younger athletes.

Student-athlete leadership initiatives, including collaboration with Nashoba and Positive Coaching Alliance, encouraged positive impact.

Youth nights, Pink Games, and community celebrations brought families and supporters together.

Success is measured not only by the scoreboard, but by preparation, perseverance, sportsmanship, and the willingness to make teammates better.

Recognizing Our Student-Athletes and Coaches

Once Mid-Wach League All-Star selections and postseason awards have been finalized and approved, we will share the announcements and celebrate the student-athletes, coaches, and teams who earned these honors.
