

Proposal: Retroactive fund - Meetup Multi Chain 2023 - Curitiba, Brazil

Proponent: 12WQMLv8itdKJ83R4y3qNGYCRrsU6bFjyd4ZvcE4tmJoSiPv

Date: 13 December 2023

Requested DOT: 282 dot 6,45 usd per dot

Short description:

Curitiba is exploring Web3 technologies such as decentralized finance, digital identity, smart contracts, supply chain transparency, civic engagement, and NFTs. Embracing these technologies can enhance financial inclusion, privacy, governance, economic growth, and support the local art scene. Curitiba's tech-savvy community makes it well-suited to adopt and benefit from Web3 advancements.

Hosting the Multichain Meetup party in Curitiba would promote awareness, collaboration, education, networking, and community building within the local blockchain ecosystem. It would contribute to the growth and adoption of Polkadot and blockchain technology in the region, positioning Curitiba as a hub for innovation in this field.

1 - Context of the proposal:

The Multichain Initiative was the union of various networks for the promotion and propagation of blockchain technology and Web3 in Brazil. It brings together the Polkadot

community, web3 enthusiasts, new/curious DOT holders, and builders to hear about developments in the Polkadot ecosystem.

2 - The motivation for this proposal:

This proposal aims to offer a Multichain Meetup in Curitiba, Brazil to gather the local community to experience the event all together. Hosting this event in Curitiba offers access to cutting-edge insights, networking opportunities, community building, learning experiences, and helps promote the city as a tech hub. The Multichain MEET UP will be held in a coworking space in a well-known neighborhood in Curitiba Batel, close to universities UTFPR and with easy access to public transport and easy transit.

My name is John Rhodel Bartolomé, I am an Senior ambassador for Polkadot, I am the founder and creator of educational content for Portuguese on the youtube channel and blog "Verbo Dotsama" and also a translator and co-founder of content for the blog in Filipino, "Tagalog Dotsama", I am a polkadot ecosystem enthusiast since 2020, I am a software developer and I am learning Rust to try the POLKADOT ACADEMY in the future, I am an ambassador for some parachains of the ecosystem and very active on twitter @parachainboy, I want to develop a web3 and teaching hub here in the south of the country of Brazil and I believe that the region is an excellent place for growth and knowledge about POLKADOT. More information about the city of Curitiba is at the end of the proposal.

3 - How we will do this:

Purpose of the event: Bring information about the Polkadot ecosystem, create an engaged community in the city of Curitiba and present the ambassador program to the community.

Organizer: John Rhodel (Parachain Boy)

Targeted audience: the local community made of end-users, Polkadot/Kusama enthusiasts, Web3 enthusiasts, crypto enthusiasts, Web3 developers.

Expected number of attendees: 50

Expected event hours: 6 hours

Targeted Venue: [NEX Coworking](#)

Event execution Budget:  Multichain MeetUP - Curitiba - Brazil

Event Agenda:

- 17:30 to 18:25 - Arrival
- 18:30 to 18:35 - Multichain Opening
- 18:35 to 18:55 - Tim (Bankless BR)
- 19:00 to 19:15 - Hsuite (Hedera)
- 19:20 to 20:25 - Polkadot (55 minutes of Polkadot)
- 20:30 to 20:45 - Coffee Break

- 20:45 to 21:00 - Filecoin
- 21:00 to 21:15 - Near Protocol
- 21:20 to 21:35 - Zcash
- 21:35 to 21:50 - Algorand
- 21:55 to 00:00 - Network and Open Feedback

4 - Payment conditions:

 Multichain MeetUP - Curitiba - Brazil

ENGLISH	
Budgets	Cost in USD
Venue Rental:	650
Photographer	600
T-shirts	375
Stickers	95
Brochure	50
total bid cost USD	1.770,00

RECEIPTS	Cost in USD	Cost in BRL
 Receipt - Nex.pdf - Venue	650	3215,00 BRL
 Receipt - Son Cr...	600	Payed in USDT
 Receipt Shirts B...	375	1875,00 BRL
 Receipt Qualigra...	95	470,00 BRL
 Receipt - 360 gr...	50	247,00 BRL

What is the amount requested?

1770 USD for the variation in the value of the dot, if it falls and remains a risk, if it does not vary, the surplus returns to the treasury : **total 1800 USD**

How does this amount cover the work of the proposal? What tasks are to be included on the payment?

A missão Polkadot

Polkadot permitirá uma web completamente descentralizada, onde os usuários estão no controle.

Conectando redes privadas e públicas, protocolos e tecnologias futuras que ainda não foram criadas.

A Polkadot facilita a criação e conexão de aplicativos, serviços e instituições descentralizados.

Um protocolo escalável, interoperável e seguro para a próxima web

Polkadot

O ecossistema para inovação sem limites

Não comece do zero. Comece com Substrate

O Substrate tira o trabalho duro do desenvolvimento. Projetado para ser flexível e modular, permite que equipes construam rapidamente blockchains com base em códigos pesquisados academicamente e testados em campo que provaram seu valor em muitas redes ao vivo no valor de bilhões de dólares.

Benefícios

Interoperabilidade

Polkadot permite transferências entre blockchains de qualquer tipo de dados ou ativo, não apenas tokens.

Escalabilidade

Escalabilidade transacional espalhando transações por várias blockchains paralelas, protegidas pela Polkadot.

Segurança

Polkadot permite que blockchains interajam de maneira significativa. As redes permanecem independentes em sua governança, mas unidas em sua segurança.

Comments, Q&As:

1 - Why Curitiba?

Curitiba is a city that has always anticipated future demands and directed its planning policies with a focus on human beings. Since 1970, urban planning has made the city a model of urban management, public transportation, and environmental preservation.

These policies have earned Curitiba a high quality of life, as evidenced by indicators measuring city development. The Municipal Human Development Index (IDHM) for the capital is 0.856, the Living Condition Index (ICV) is 0.808, and the Synthetic Quality of Life Satisfaction Index is 81.75%. The literacy rate in the city reaches 96.86%.

The capital of Paraná is part of the group of five Brazilian municipalities that concentrate 27% of the country's total wealth. According to the Brazilian Institute of Geography and Statistics (IBGE), in 2017, Curitiba's Gross Domestic Product (GDP) was R\$ 84.7 billion, ranking it fifth nationally. Curitiba's per capita GDP is R\$ 44.4 thousand (2017). The Services sector accounts for 84.7% of the total GDP, Industry accounts for 15.28%, and Agriculture for less than 1%.

Curitiba was chosen as the most inspiring city for green areas preservation by the American magazine Wired. The ranking was posted on the magazine's Instagram profile, which has 1.6 million followers. The other cities in the ranking include Seoul (South Korea), Copenhagen (Denmark), New York City (United States), and Singapore (city-state in Asia). Curitiba also stands out in education. It has the highest literacy rate (96.86%) and, for the third consecutive time, the best performance among Brazilian capitals in the Basic Education Development Index (IDEB). It is home to the first university in Brazil, the Federal University of Paraná, founded in 1912. The city also hosts the Federal Technological University of Paraná (UTFPR), the first university of its kind in Brazil.

Curitiba has been internationally recognized and is considered a reference as a city. Curitiba is considered the 2nd Technological Innovation Hub in Brazil, according to a survey by the Institute of Applied Economic Research (IPEA). It has received titles such as the 2nd Best City for Business in Brazil and the 5th Best City in Latin America for Business, according to América Economia magazine in 2005 and 2006, respectively. It was also named the Best Business Destination by Veja magazine in 2007 and ranked 3rd among Infrastructure

Champions by Exame magazine in 2006. In addition, it was recognized as the 2nd Best City in Southern Brazil to work in, according to Você S.A. magazine in 2005, and as the city with the Best Quality of Life in Brazil, according to the Firjan Development Index (IFDM) in 2005 and 2007.

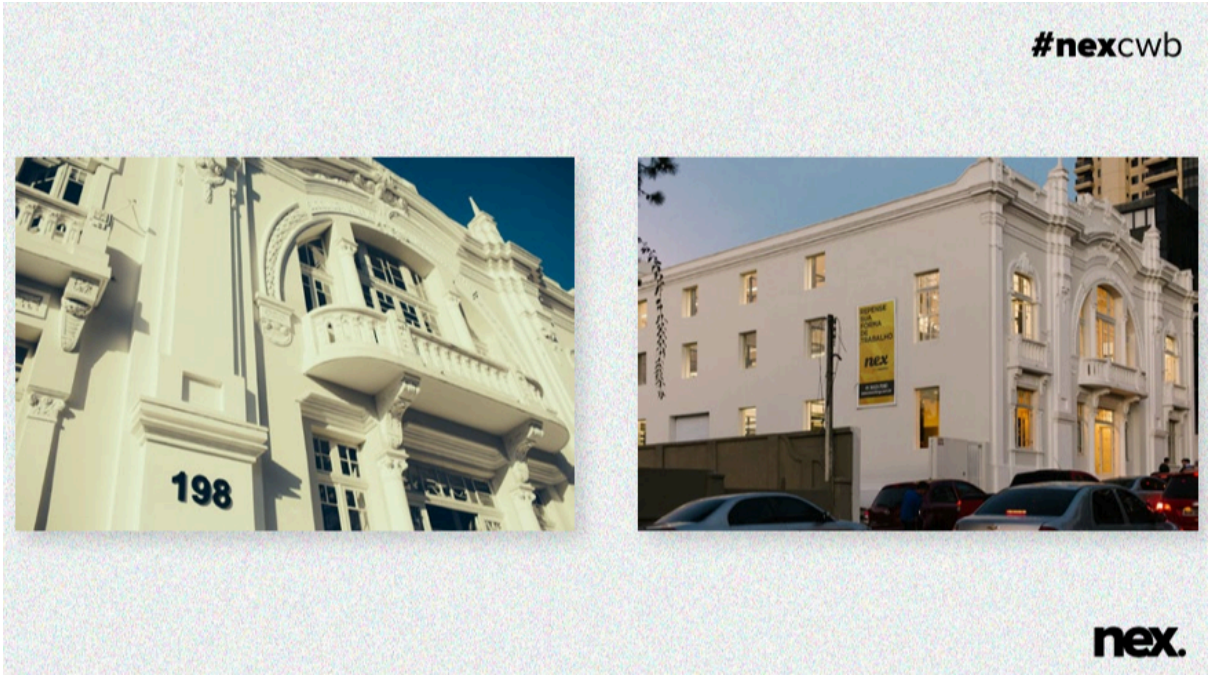

Curitiba unanimously won the 2010 Globe Award for Sustainable City, organized by the Globe Forum in Sweden, which elects the most sustainable city in the world each year. According to the 2020 Tech Report, Curitiba is the Brazilian capital with the highest productivity and efficiency in the technology sector. The capital is also a standout among national smart cities, ranking 3rd nationwide, behind São Paulo and Florianópolis.

In 2021, Curitiba was among the seven most intelligent cities in the world and a finalist for the international Intelligent Community of the Year award, promoted by the Intelligent Community Forum (ICF). Among all the finalist cities in South America, Curitiba is a pioneer.

5 - How was the event from your perspective? Can you provide some feedback?

The MEETUP multichain event was a success in my perception. A total of 39 people attended the event. We distributed gifts to the participants, including t-shirts and stickers. We also talked about Polkadot to the general public and had a good time discussing with other networks like Filecoin, Algorand, Near, Hedera, and Zcash.

Unfortunately, not everyone stayed until the end for the final Photo because the presentations went on until 10:30 PM. However, I have posted the list of confirmed attendees, and you can look at the files for all photos and testimonials from randomly selected participants here:
