Log In

Go to <https://lcmschools.illuminateed.com>. I recommend bookmarking this site.

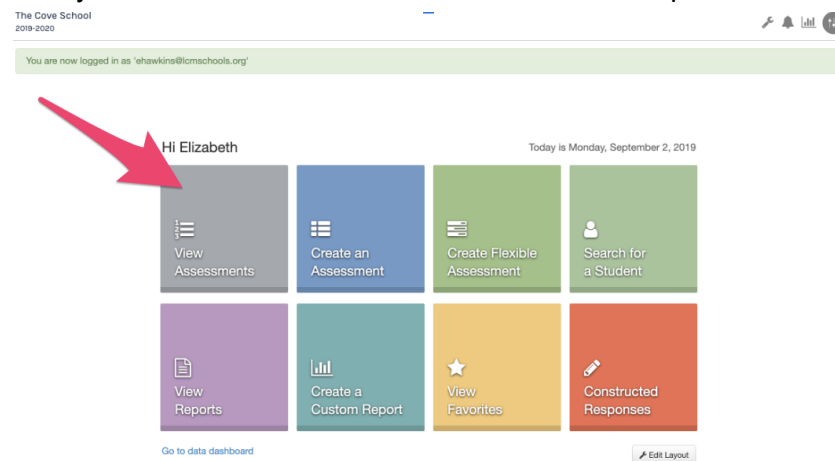

At the login page choose Sign In with Google in the lower half of the screen.

Sign In with Google

You may be asked to identify which Google account you want to use. Select your lcmsd account. That's it. You're in.

The Grid

Now you will see the Illuminate Grid. Here is a sample of what Beth Hawkins sees:

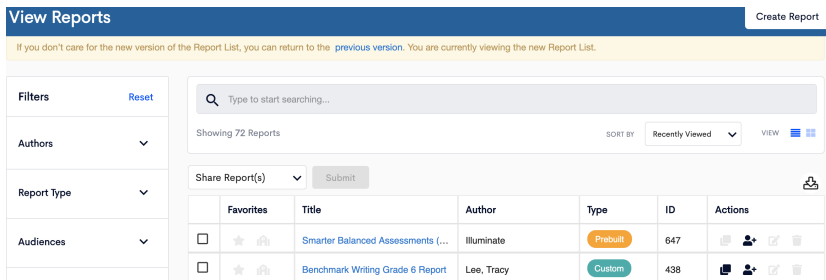

Today we are going to look at View Reports and Search for a Student. Let's start with View Reports.

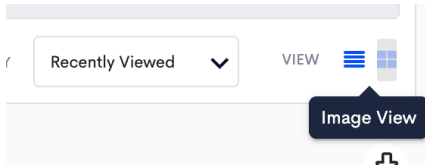

View Reports - CAASPP/SBAC

View Reports is the best way to see CAASPP/SBAC data for your whole class.

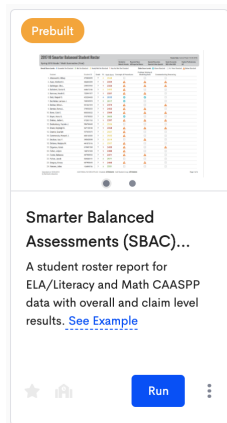

After you click on View Reports you will see something like this:

I prefer Image View over List View. To access that, click on the icons on the right of the screen:

Inside the search bar enter “SBAC” (not CAASPP).
You want the student roster report.

Click on Run to run the report.

Now your screen gets a bit crazy, because you have a bunch of options to choose from.

Middle school folks will want to filter classes because Illuminate includes students in all of your classes. I can help you figure out which classes are represented by the numbers. The easiest solution is a little trial and error - view the results for one class and see who is on the roster. Then you will know which classes are which.

Elementary folks can skip the top half of the options and just focus on the red asterisks.

Test Year is where you will identify if you want the results of your current students or last year’s students. The default for Beth is to see the 2018-2019 fourth grade results, which would give her the scores for her current roster. Let’s view it and see what we get.

View in Browser will let you see the report on the screen so then you can decide if you want to download it as a pdf. Here is what is generated (minus student names):

You can Download as PDF this report and then you will always have easy access to it. This is the ELA report. You will need to run it again for Math. To do that, change the option in the Subject Area filter to Math. Click View in Browser again and you will see the math results.

Adding Previous Year Results

Change the answer in the box for Include Previous Year Results to Yes.

Include Previous Year Results *

View Reports - SRI Class Report

From the View Reports page, search for SRI. You will see a custom SRI report.

The screenshot shows the main screen of the "Scholastic Reading Inventory - SRI Report" application. At the top, there is a teal-colored button labeled "Custom". Below this button is a large, light gray rectangular area containing four vertical columns, each representing a different reading level or category, with horizontal lines indicating rows of data. The title "Scholastic Reading Inventory - SRI Report" is displayed in a bold, black font, followed by the subtitle "From 2015 - 2019" in a smaller, regular black font. At the bottom of the screen, there are three icons: a star, a house, and a blue button labeled "Run". To the right of the "Run" button is a vertical ellipsis menu icon consisting of three dots.

Run it and you will see SRI results like this:

First Name	SRI GRADE	SRI CLASS NAME	SRI LAST LEXILE DATE	SRI LAST LEXILE SCORE	SRI PERCENTILE	SRI NCE
Miles	4	4 - Hart & Lerohl	06-04-2019	613	38	44

View Reports - Benchmark Writing Class Report

From the View Reports page, search for “writing”. Choose the grade level span that is accurate for your students. For Beth’s class I chose the K-5 report.

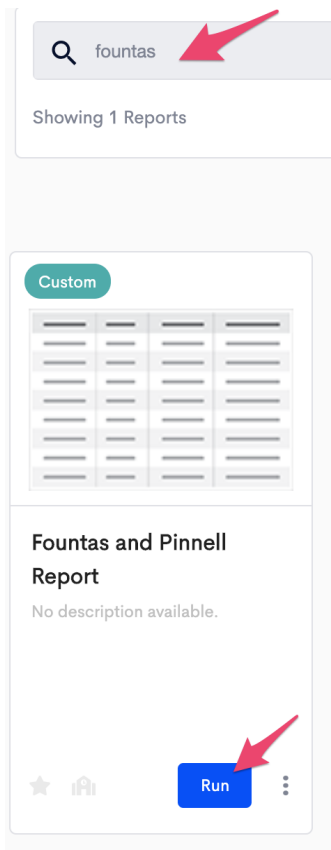

Three screenshots of the 'Custom' report builder interface for Benchmark Writing. Each screenshot shows a table with 10 columns and 10 rows of data. The first screenshot is for 'Grade 6 Report', the second for 'Grade 7-8 Report', and the third for 'Grade K-5 Report'. Each report has a 'Run' button at the bottom right.

When you run the report you will see something like this:

View Reports - F&P Class Report

From the View Reports page, search for “fountas” and you will see a custom Fountas and Pinnell Report. Click Run to run it.
