

Privacy Policy

Last Updated: June 4, 2026

Welcome to Architecture App.

This application is designed for demonstration and informational purposes.

Information Storage

The app may allow users to create, edit, or save information within the application. Any data entered by users is stored locally on the user's device only.

No Server Communication

Architecture App does not upload, transmit, or store user data on external servers, cloud databases, or backend systems.

All information remains on the user's device unless the user manually shares or exports it using device features.

Data Collection

This application does not collect personal information from users for transmission to the developer or any third party.

Data Sharing

The app does not sell, share, rent, or disclose user information to third parties.

Third-Party Services

This application does not use a backend service to process or store user data.

Data Security

User data is stored locally on the device. Users are responsible for maintaining the security of their devices.

Children's Privacy

This application does not knowingly collect personal information from children under the age of 13.

Changes to This Privacy Policy

We may update this Privacy Policy from time to time. Any updates will be posted within the application or through the app store listing.
