Hexagonal-Bipyramid's original Trait mods have the designation TP 3-# standing for: Traits Project, Part 3 - Mod Number.

Use Ctrl+F on your keyboard to search for the trait you're looking for, or use the handy outline links in the sidebar.

This Document will only show mods that use the various traits. Please read the description of each mod to see any conflicts and let the creator know if you come across any yourself. Conflicts are also being tracked on a thread at Mod The Sims, although there has not been a reply for 4 years.

\* Sun & Moon's Star Factory has many integrated mods with Trait support. If a trait is used by more than one Star Factory mod, all mods will be linked in the middle description. \* There is now a Medieval Traits tracking sheet. Check it out <a href="Here">Here</a>.
