

Heat Technology Science Formative Assessment

Learning Activity:	Name:
---------------------------	--------------

Concerns <i>What you can do better.</i>	Criteria (<i>Science Outcomes</i>)	Advanced <i>Evidence of exceeding standard.</i>
	Investigate and interpret examples of heat-related technologies and energy use in the past: <i>- brainstorm activities using heat</i> <i>- choose 2 activities to explain how early civilizations used heat to accomplish this task</i>	
	Trace linkages between human purposes and the development of heat-related materials and technologies: <i>- describe, in general terms, how your chosen activities changed over time as technology advanced.</i>	

Overall Assessment: ☐ **Exemplary** ☐ **Proficient** ☐ **Adequate** ☐ **Limited**

Additional Comments:
