CAREER SUMMARY

Front-End Web Developer with background in Business Administration and Accounting. I am a life-long learner with a passion for exploring new technologies and always expanding my existing skillset. My interests span web and software development, technology, crypto currency, customer satisfaction, and improved organizational systems, procedures and processes that deliver great value. I am looking for opportunities to contribute my skills to a tech company with global reach while at the same time improving my skills.

TECHNICAL AND OTHER SKILLS

Tech Skills: HTML, CSS, Bootstrap, JavaScript, Git, GitHub, UI, API, Technical Writing.

Other Skills: Grant Writing, Project Management, use of Salesforce and Protel

PROJECTS

Mini Projects: Please Visit my portfolio page to access them via the links.

Website for Michelle Cole Coaching (launching soon)

This is a freelance website project I have landed after four weeks of learning Front-End Web Development in the Skills for Life Bootcamp. It is a great opportunity for me to put my learning to test.

StFG (in progress) This is a website that I am currently building for Save the Future Ghana.
