

**"A Message Concerning the Financial, and Economic,
and Military Situations and Concerns
Which Shall Effect Your World and Country," Abba Father
God said.**

(Published on January 4, 2018 [1-4-2018]. Date given: 12-24-2017.)

God gave me this message on December 24, 2017.

[God said:]

"My children, I am the LORD your God and Abba Father. I love you better than you could imagine. The love I have for you is greater than a sea of love, for I am infinite and My love is infinite. There is a place of quiet rest and peace with Me as you look to Me, and give Me your concerns, and rest in Who I am. There is a place of quiet rest in Me for all My Church. I have no favorites. I am your Counselor and your Rock of refuge. I am your King, and Abba Father, and God. So, you can look to Me to meet all your needs, and to comfort, and keep you, and to take good care of you. I am your all in all and your length of days, forever and ever.

**["The near future, and the nations rising up against
America and in Europe"]**

Now, I will give you a special message about NATO, and Russia, and your country. The North Atlantic Treaty Organization was designed to counter Russia and the Soviet Union. But, that organization now is set on bringing war to Russia or provoking Russia to conduct war with NATO, and the United States, and Europe. There are many people who are ignorant of the war that is brewing right now.

There are many who are unaware that history is unfolding before their eyes. They are in the dark and do not see that indeed war with Russia is imminent and that war will never leave the agenda of the elites, for war is how they gain power. They gain power by way of waging wars for profit, and for enslaving mankind, and for giving Satan the glory.

But, I shall finish all wars once and for all, and bring in a new Heaven and a new earth. I shall never let the devil do anything unless I can use it for My glory to warn people and call out to them through it. So, you can rest, knowing that I am taking care of you and watching over you, and that all the calamity and judgment that will befall your nation, and the world, will not touch you; for you are the apple of My eye, and you are precious to Me. You are My dear children, and I love you very

much.

The fires in California will certainly grow in intensity and strength. They will engulf the state and burn up its forests. The judgment on America will happen in stages, but it will happen quickly. You have seen how all those disasters happened one after another in an unprecedented way for the Gulf of Mexico. So, likewise, there shall be disasters that strike your land and your country, one after another, and it shall sink into the waves of judgment, and it shall not emerge. Like a stone cast into the sea, it shall sink and never surface above the waves.

["Russia shall come out of its forest and come out of its hibernation."]

Russia shall come out of its forest and come out of its hibernation. Already, it is stirring and waking up. It is being poked and prodded with pointed objects and it is getting angrier by the day. The Russians are trusting the West less and less, and feeling that America is more and more their enemy and foe. The Russians will side with their leaders in destroying America and in wiping out the entire country because of the things America will do to Russia, and because of what America has already done.

The knowledge that you have about these things is limited, but you will see more things happen very soon. Very soon, there will be a time of short-lived peace established between Russia and China as they fight together to destroy America and conquer its cities, but then the two great nations will fight each other for land in conventional and small-nuke wars. They will use miniature nukes and conventional bombs and weapons to engage each other in combat over the United States of America, after having worked together to destroy it and enslave it.

The Europeans will be horrified to see America, their great ally, being judged, but then they shall see Russia set its sights on the weakest members, and on the strongest members of the European Union, and on the countries of Europe who hold the power and the prestige. Germany, and Austria, and Great Britain shall fall to the Russians in combat and by way of surrender. The Russians shall wage a quick and victorious war in Europe and it will destroy NATO like a baseball bat striking a glass window, shattering it into pieces.

The time of judgment is here and it is happening now. Soon, there will be more maneuvers of troops on the borders of Russian and more preparations for war. But, there will also be natural disasters in America and in other parts of the world to call out to people and prepare them for the Tribulation, and for the end times that is upon you. Woe unto the world, for they have sinned greatly against Me. I am calling

out to them, but many people are resisting Me and hardening themselves against Me.

[“The judgment on America, which is soon coming”]

Woe unto your country, for it is full of filth and abominable evil. It is a pot of slime and poison, and it shall surely be overturned and destroyed. I will show you that your nation is like a crumbling wall, which, when hit by a mild earthquake, will certainly fall to the ground in a quick series of convulsions. Now, hearken to what I have to share with you regarding your nation’s status in the world.

It will go from being a first world country to being a third world, and even lower in its status of the quality of human existence, as regards the natural realm. Your country is first on the list of quality in terms of military power, but it is second or third when it comes to the quality of human existence because its infrastructure is aging, its health care is poor, and its cities are becoming more dangerous places to live in than just a few years before.

They are full of criminals that will take advantage of the breakdown of society to unleash their hurt, and pain, and bitterness. They will break into stores, and loot, and steal, and kill because the police presence will get weaker as the police began to lose confidence in their ability to handle the criminals and their gangs.

When police see that an area of a city is full of crime, and full of violence, and full of guns, they will stay away, from that area for fear of their own lives, and will stay in more quiet neighborhoods. But, the violent neighborhoods will only get more violent as society continues to get more hardened against Me.

Soon, those criminals will venture into safer neighborhoods, even nice neighborhoods, and will begin looting, and stealing, and killing because they will not care whether they die or not, because demons of suicide, chaos, and bitterness, and lust will begin to steer them to do such wicked deeds in other areas of cities. Those cities will become more and more dangerous places to live in. I will call out to the people who live in those cities and warn them, but the crime will only continue to increase.

And, the police will continue to get more heavy-handed and brutal in how they handle people because of the fear they have, and lust, and hatred in their own hearts. Police will do evil things by the innocent, and wicked gangsters will do evil by the police. This will turn into a tornado or hurricane force, which will rip cities into fragments, which will be at each other’s throats, and will seek to kill and steal from one another.

Sadly, these things shall happen very soon. You will hear of more shootings, and more massacres, and more terrorist attacks. These things shall be to take innocent lives and bring the body count high on the scale of death and violence in your country. The devil will sow the ground for his minions and subordinates to reap a harvest of destruction and judgment on your nation.

[“The economy of America will fail”]

There will be great disasters striking the foundational backbone of American economic power and industry. The coal and natural gas companies will begin to suffer from the hardships which strike them. Fuel and gasoline companies will suffer from new laws and economic problems, which will make gasoline more expensive.

There will be great suffering in the cities as the society encounters more economic hardships and poverty. You hear of homelessness now, but soon you will see homelessness increase to the point where most towns and cities in America will be affected by increased amounts of homelessness and poverty. Businesses, which were once thriving, will shut down, and malls will go empty and unused. Stores, which once sold millions of dollars worth of merchandise will sell much, much less because more of America will be in the grip of poverty and penury.

This is all because they have hardened themselves against Me, and have refused to put Me first in their lives, and have rejected My ways and My Word.

[“Closing words”]

I want you to know that you are special to Me and valuable to Me. I shall never forsake you or leave you at all. I shall help you and heal you. Just look to Me and trust in Me, for I love you very much. I am never going to leave you, nor forsake you because you are dear to Me, and you are My children, and I am your loving Abba Father God.

Rest in Me, think about who I am, and focus on My Word and on My heart. And, I the LORD your God and Abba Father have spoken.”
