

Prompts:

PROFESSIONAL STUDIO MOCKUP PROMPTS

PROMPT 1: Classic Front-Facing White T-Shirt

Professional product photography of a white cotton t-shirt displayed on an invisible mannequin or ghost mannequin, centered composition. The t-shirt features a large black and gray graphic print with "RUN THE STREETS" text and urban streetwear character design in monochrome style. Clean studio setup with soft diffused lighting from front and sides, minimal shadows. Pure white seamless paper backdrop. The shirt is perfectly pressed and wrinkle-free, hanging naturally with proper draping. High resolution, 4K quality, commercial product photography, sharp focus on the graphic print, professional color grading, e-commerce ready. Shot with 85mm lens, f/5.6, studio lighting setup with softboxes.

PROMPT 2: Premium Sweatshirt Display - Front View

Studio product photography of a premium white crewneck sweatshirt on ghost mannequin, showcasing "RUN THE STREETS" streetwear graphic design in black and gray. The sweatshirt features ribbed collar, cuffs and hem. Perfectly centered on a clean white cyclorama backdrop with professional three-point lighting creating soft graduated shadows. The fabric shows realistic texture and natural folds. High-end commercial photography style, crystal clear details of the monochrome graphic print, studio-quality lighting with no harsh shadows. 4K resolution, shot with medium format camera, 80mm lens, f/8 for maximum detail sharpness. Professional color accuracy, white balance perfection, retail-ready product image.

PROMPT 3: Angular 3/4 View - White Hoodie

Professional e-commerce photography of a white pullover hoodie displayed at 3/4 angle on invisible mannequin form. Front chest features bold "RUN THE STREETS" urban graphic with character illustration and shattered text effect in black and gray tones. Studio environment with pure white infinity backdrop, soft box lighting from 45-degree angles creating dimensional depth without harsh shadows. The hoodie's drawstrings are positioned neatly, fabric shows premium cotton texture with natural draping. Hood properly shaped and positioned. Commercial photography quality, 4K high resolution, tack-sharp focus on graphic details, professional color calibration, minimal post-processing for natural look. Shot with 100mm macro lens, f/11 for full depth of field.

PROMPT 4: Flat Lay Top-Down View

Top-down flat lay product photography of white t-shirt on pure white surface, perfectly centered and symmetrical. The "RUN THE STREETS" streetwear graphic design is

prominently displayed across the chest area in black and gray monochrome style. Overhead studio lighting with large diffused softbox creates even illumination with no hot spots or shadows. The shirt is perfectly laid flat and pressed, sleeves positioned at natural angles, collar straight. Every detail of the urban graphic print is sharp and clear. Professional commercial photography for online store, 4K resolution, shot from directly above with 50mm lens, f/8, controlled studio environment. Clean, minimalist composition with perfect symmetry.

PROMPT 5: Luxury Premium Display - Sweatshirt

High-end luxury product photography of a premium white crewneck sweatshirt on professional mannequin bust (no head or arms visible). Features striking "RUN THE STREETS" monochrome streetwear graphic across chest. Sophisticated studio setup with gradient white-to-light-gray seamless backdrop. Dramatic yet soft studio lighting using multiple light sources: key light from 30-degree angle, fill light softening shadows, rim light creating subtle edge definition on fabric. The sweatshirt shows premium cotton fleece texture, natural garment structure, slight wrinkles adding authenticity. Editorial commercial photography style, museum-quality presentation, 4K ultra-high resolution, shot with prime 85mm lens at f/4 for slight background separation while keeping graphic razor sharp. Professional color grading, luxury fashion photography aesthetic.

PROMPT 6: Side Angle Detail Shot - Hoodie

Professional studio product photo of white pullover hoodie shown from side angle, rotated approximately 30 degrees. The "RUN THE STREETS" graphic design is partially visible on front, showing dimension and print quality. Ghost mannequin technique with no visible model. Pure white photography studio backdrop with gentle gradient shadows for depth. Multi-light studio setup: main softbox at 45 degrees, reflector opposite side filling shadows, hair light separating garment from background. The hoodie displays natural fabric behavior, proper fit and drape, hood positioned realistically. Fabric texture clearly visible showing quality cotton blend. Commercial product photography for premium fashion brand, 4K sharpness, shot with 70mm lens, f/6.3 for optimal depth, professional white balance and color accuracy, retail catalog quality.

PROMPT 7: Close-Up Detail of Graphic Print

Macro product photography close-up of the "RUN THE STREETS" graphic print on white sweatshirt fabric. Extreme detail showing the monochrome character illustration, shattered text effect, and bullet hole graphics in crisp black and gray tones. Studio lighting with soft directional light revealing fabric texture and print quality. Shallow depth of field with f/2.8 creating slight background blur while keeping central graphic elements

tack-sharp. White seamless backdrop. Professional commercial detail shot for quality verification, 4K ultra-high resolution, shot with 100mm macro lens, controlled studio environment, perfect focus on print details, natural color rendering showing true-to-life blacks and grays on white fabric.

PROMPT 8: Multiple Angle Composite - E-commerce Grid

Professional product photography composite showing white crewneck sweatshirt with "RUN THE STREETS" graphic from four angles: front view, back view (plain white), side view, and detail close-up. All shots on ghost mannequin form against pure white background. Consistent studio lighting across all angles using professional three-point lighting setup. Each view shows the garment in perfect condition, wrinkle-free where appropriate, natural fabric drape. Grid layout presentation for e-commerce product page. Ultra-high resolution 4K quality, shot with 85mm lens at f/8 for consistent sharpness across all frames, professional color matching between shots, commercial retail photography standard, clean and minimal presentation.
