

Hi XXXX,

It was a pleasure connecting with you today.

I'm excited to work with you as you bring your life experience together with the skills you'll gain at NLP Trainers Training to create world-class trainings and seminars.

The mind–body connection is something people love, and I know you'll absolutely nail it.

Below is the email we share with those ready to scale their business beyond the one-to-one model into the highly rewarding one-to-many space.

At the trainer level, success requires more than simply learning how to present and teach NLP. It's about mastering the proven formula that has allowed training businesses like ours to thrive year after year.

That's exactly what the Business Success Package delivers, combining advanced trainings with access to the inner workings of a successful training model you can make your own.

Trainers Training is designed to integrate your NLP skills at both a conscious and unconscious level. Over the 18 days, you'll install more than 30 presentation and leadership behaviours that leave you with the confidence, presence, and skills of an industry-leading trainer. You'll walk away a refined presenter with a toolkit of proven strategies and ongoing support, including the option of lifetime mentoring and even a multi-year Master Trainer pathway for those who want to reach the highest level.

Our intention is simple: to see you become a confident, inspiring, and world-class educator, someone who creates immense value from the stage and builds a community of students eager to attend every course you offer.

For those who want to broaden their expertise, we also facilitate Hypnosis Trainers Training immediately after (for those with prior Hypnosis certification). Additionally, we offer Time Line Trainers Training and Coaching Trainers Training, giving you further points of distinction in the market.
