PLAN OF INDIVIDUAL WORK
from the discipline "Clinical immunology and allergology" for students of the 5th year of the Faculty of Medicine specialties 222 "Medicine"

Individual student's work

Individual work of students - participation in annual scientific conferences with the availability of printed works, Olympiads held at VNMU, interuniversity all-Ukrainian and international. Production of diagrams, tables, multimedia support and video films.

Evaluation of individual work of students

The number of points for IRS depends on its significance, but is no more than 12 points. They are added to the sum of points scored for the current initial activity or to the final grade in the discipline for participation and victory in Olympiads, conferences, and the presence of printed works.

Points are distributed as follows:

12 points – prize places at interuniversity Olympiads, international conferences with the presence of printed works

11-10 points – for prize places at intra-university Olympiads and conferences with the presence of printed work

10 points – for participation (without a prize place) in interuniversity Olympiads, international conferences with the presence of printed works

8 points - for participation (without prize place) in intra-university Olympiads and conferences with the presence of printed work

6 points - for the production of diagrams, tables, multimedia support and video films - taking into account the importance of the work performed.

Approved at the methodical meeting of the department on 30.08.2022.
