

Article Title (bold 15 point Times New Roman Font)

(Please Start Each Word with a Capital Letter and Continue with Lowercase)

Abstract

[The abstract should be one paragraph of between 150 and 250 words. It is not indented. Section titles, such as the word *Abstract* above, are not considered headings so they don't use bold heading format. Instead, use the Section Title style. This style automatically starts your section on a new page, so you don't have to add page breaks.]

Keywords: [Add up to 5 keywords in lowercase, but capitalize proper nouns, separate each keyword by comma]

[The body of your paper uses a half-inch first line indent. APA style provides for up to five heading levels, shown in the paragraphs that follow. Note that the word Introduction should NOT be used as an initial heading, as it's assumed that your paper begins with an introduction.]

[Heading 1 Flush Left, Bold]

[The first three heading levels get their own paragraph, as shown here. Headings 4, and 5 are run-in headings used at the beginning of the paragraph.]

[Heading 2 Flush Left, Bold, Italic]

Note: [Place all tables for your paper in a tables section, following references (and, if applicable, footnotes). Start a new page for each table, include a table number and table title for each, as shown on this page. All explanatory text appears in a table note that follows the table, such as this one. Use the Table/Figure style, available on the Home tab, in the Styles gallery, to get the spacing between table and note. Tables in APA format can use single line spacing. Include a heading for every row and column, even if the content seems obvious. A default table style has been setup for this template that fits APA guidelines.]
