Equilibricum

Maximum Stack: 10

Short name: Equilicum

Long name: Equilibricum

Description: a needle full of Equilibricum

Tooltip: A needle full of an almost milky blue fluid. The vial seems to hold almost 250 mL of the fluid. On the vial there is an illustration of a balance scale, with a jar of cum on one scale, and a bull resting his testicles on the other. On the back there is a warning that using the mod when there a significant difference in ball/cum size, it may result in users growing an extra pair of testicles.

Type: Transformative Item, single use consumable

Base Price: 1700

Effect

Formula

Equalize cum production and testicle size on a certain ratio. Said ratio being 1 inch across for each 2L of maximum ejaculate. With a maximum change of 10 inches/20L of maximum ejaculate per dose. Gaining $\frac{3}{5}$ and losing $\frac{2}{5}$ of the difference between the 2 values to the lesser and greater value respectively. I guess I should give an example.

Let's say your maximum ejaculation is 8L of cum and you're balls are 10 inches across. You would gain 7.2L of maximum cum since

$$8L/2 = 4 \text{ inches}$$

$$10 \text{ inches} - 4 \text{ inches} = |6| \text{ inches}$$

$\frac{3}{8}$ of $|6|$ inches is 3.6 inches
 $3.6 \text{ inches} * 2 = 7.2\text{L}$

However you would lose 2.4 inches of ball length across

$\frac{2}{5}$ of 6 inches is 2.4

If the difference reaches 10 inches/20L the player gains a second set of balls. Having multiple balls do not affect the equation at all, the microbots work based on the size of one teste to the production ratio.

The Bulgy and Potent perks also affect Equilibrum. Any quantity/size increases are increased by 50% and any quantity/size decreases are reduced by 50%. These bonus values go past the limiter value of 10 inches/20L. Or to put into simpler terms.

If you have potent and gain 20L of cum you'll actually gain 30L. Lose 20L and you'll only lose 10L

If you have bulgy and gain 10 in. you'll actually gain 15 in. Lose 10 in. and you'll only lose 5 in.

Using the example above.

$8\text{L}/2 = 4 \text{ inches}$

$10 \text{ inches} - 4 \text{ inches} = |6| \text{ inches}$

$\frac{3}{8}$ of $|6|$ inches is 3.6 inches

$3.6 \text{ inches} * 2 = 7.2\text{L}$

$7.2\text{L} * 1.5 = 10.8\text{L}$

However you would only lose 1.2 inches

$\frac{2}{5}$ of 6 inches is 2.4

$2 * 0.5 = 1.2$

Going into an equation I think it goes like this.

Z=liters

Y=inches

H=pre converted liters

X=inches derived from liters

G=difference

|number| means absolute value, yall should know this

F=end liters

E=end inches

1. $Z/2=X$

2. $X - Y = G$

3. If $X > Y$ then: $Y + (0.60 * |G| \{ \text{if PC bulgy:} * 1.5 \}) = E$ and $X - (0.40 * |G| \{ \text{if PC potent:} * 0.5 \}) = H$
If $Y > X$ then: $X + (0.60 * |G| \{ \text{if PC potent:} * 1.5 \}) = H$ and $Y - (0.40 * |G| \{ \text{if PC bulgy:} * 0.5 \}) = E$

4. $H^2 = F$

5. F=end total liters the pc has
E=end total inches the pc has

WOO! I MADE GEDAN'S JOB EASIER! *Mini personal celebration*

The cost would be around 3400 dollars a pop.

Once you use Equilibricum it cripples you with lust while numbing your genitalia (vaginas, anus, and tails enclused) making you unable to move or jack off for an hour. After an hour passes you finally get feeling back inside your genitalia and a masturbation scene is forced in the following priority

Penises>PantySniff/Goo!>Penis>Tail Cock*>Vagina>Tail Vagina*>Buttfinger

*If tail specific masturbation scenes are introduced in the future

!If these are both present, it's random

Use

{If pc has balls:

With much anticipation you carefully inject the small needle straight into one of your balls despite knowing the needle is coated in an anesthetic that would prevent any pain. You watch the vial slowly inject the cyan fluid into your [pc.balls], you almost chuckle at the thought of having blue balls. Once the needle is empty you toss the empty vial to the side and casually rub your balls, waiting for the drug to kick in.

/else:

You examine the vial of milky blue liquid as you consider how to inject it. Shrugging your shoulders, decide to inject it into your prostate. Going for the safest route, you aim the needle at your perineum. As soon as the needle is all the way in, the blue liquid drains from the vial, and you can feel your prostate swelling with the fluid, once the vial is empty you pull it out and toss it to the side. You quickly rub your perineum, trying the soothe the odd sensation in your prostate as you await the drug's full effects.

Sweet Sweat

Maximum Stack: 10

Short name: SwtSweat

Long name: Sweet Sweat

Description: a jar of Sweet Sweat

Tooltip: A jar of ointment labeled "Sweet Sweat" with an illustration of a muscular treated bull flexing as multiple less muscular bulls fawn and swoon at his feet. The back of the jar states that the ointment within will add additional pheromones to your sweat. A warning on the back says that the effects are permanent.

Type: Transformative Item, single use consumable

Base Price: 3500

Effect

Simple transformation, giving the PC a Pheromone Sweat perk; if the player has the Sweat status effect makes the Pc radiate lust damage in battle, only 50% as effective as pheromone cloud though, and stacks with pheromone cloud as well.

Use

You take the ointment and slather it all over your{if PC is buff: musclebound} body, getting it in every nook and cranny, fantasizing about the musk you'll be emitting. Your hands slide into your [pc.ass], spreading your cheeks apart as you slather some of the ointment onto your [pc.asshole] slipping a finger into it, just to make sure you apply it where it's needed. After finishing up down there, you scoop out another handful of the cream and give your [pc.fullChest] your full attention.

As you apply the thick creamy ointment on your chest you can't help but rub your nipples and feel up your [pc.chest] The more you slather yourself the more aroused you become, if this cream doesn't work at least it's a good excuse to masturbate. Your eyes roll back a bit and involuntarily bite your bottom lip as you apply the cream to your crotch, the cold thick cream almost melting onto your [pc.crotch], feeling as if you were{if PC has cock: balls deep in a cunt/else: given a massage by a very busty {if treated:cow/else:woman}}.

For a moment you consider using the rest as lube, but that would have to wait for now. The now empty jar of cream says that the effects should occur next time you sweat, so you wrap up and head for the nearest shower, eager to indulge in your thicker musk.

Nutnog

Maximum Stack: 10

Short name: Nutnog

Long name: pint of Nutnog

Description: a pint of an eggnog cum mod named Nutnog

Tooltip: A glass pint of what is labeled as "Nugnog". A small picture under the name shows a bull and a cow, both wearing the same attire. A santa hat and a santa coat, neither of which are being covered very well. With a mug in one hand, and the bull's cock in the other, milking his throbbing length for what seems to be eggnog.

Type: Transformative Item, single use consumable

Base Price: 3500

Effect

Upon consumption with non eggnog cum:

- If has male genitalia change the fluid type to EGGNOG.

Use

You pop off the cap and chug the dairy product, the cool, sweet liquid pouring past your tongue. As you chug the liquid, you fail to swallow all of it, a couple streams spill out of your mouth and down your chin and [pc.breasts]. Once the final drops of the mod spill down your throat, you start to feel a growing warmth grow in your body as the nanobots begin to do their work.

{if PC has cock:

Biting your tongue, you suppress a groan, as your prostate swells and pulses from the mod. You try to resist, but your primal instinct overtakes your willpower as your hands fly to your crotch and begin to pump your [pc.cocks]. As soon as your hands come in contact with your, [pc.cocks] you shudder from the sensitivity, your breathing gets shallower and the edge of your vision begins to darken. In a wave of pleasure, you let yourself collapse onto the floor, your rump up in the air, one hand stroking [pc.largestCock], your other in a fist, slamming the ground. Eventually the floodgates open, your cock ejecting ropes of [pc.cumColor] splendor until the floor beneath you is covered in your cum.

Eventually, you come to your senses, the haze of your orgasm fading, leaving you panting and gasping for breath. The floor beneath you now coated in a thick sheen of your jizz, you sample your seed. It tastes just like eggnog!

/if PC doesn't have cock, or already has the mod:

The warmth lasts for a second, before dissipating. {if PC already has eggnog cum:You already have eggnog flavored cum, so nothing else happens./if PC doesn't have cock:You should probably have a penis if you're expecting anything else other than a tasty drink.}

Peckermint

Maximum Stack: 10

Short name: Peckermint

Long name: peckermint candy cock

Description: a foot long candy cane shaped like a penis

Tooltip: A foot long peppermint candy shaped like a terran phallus. The red and white stripes wrap around the head, down to the shaft, and balls. A small tag tied to the head gives a small summary of the mod's purpose. "Looking to fill someone with the Yuletide spirit? Look no further! Take one Peckermint for hot, sticky peppermint candy flavored cum. Take two for a candy cane colored cock!"

Type: Transformative Item, single use consumable

Base Price: 1750

Effect

Upon Consumption with non peppermint candy cum:

- If has male genitalia change the fluid type to PEPPERMINT CANDY.

Upon Consumption with peppermint candy cum:

- If has male genitalia change the color of all cocks to CANDY CANE.

Effectively, you require 2 of them to get the full candy cane cock.

Use

You slowly peel the thin plastic off of the candy cane colored cock. The peppermint pecker rests in your hand, a good 12 inches. You slowly lift it to your lips, giving the head a nice long lick. A tickle of peppermint runs down your tongue, you grin to yourself before plunging the whole confectionary cock into your mouth.

Eventually your saliva breaks through the thin candy of the head, and a gooey, sticky, deep red liquid pools into your mouth. The sweet thick peppermint liquid runs down your throat as you slurp and suck on the terran shaped candy cock. Eventually the last drops of the peppermint liquid stop flowing, you must have drank all of it already.

Soon the once 12 inch candy dwindles to 6, and eventually a one inch stub with a pair of balls connected to it. You pop the rest of the candy into your mouth, sucking on the whole thing as you ponder other thoughts. But, to your surprise, the balls collapse like egg shells once you prod them with your tongue. As it turns out, they must have been filled with the same red fluid as the rest of the cock. You chuckle lightly, you sucked the candyman's balls dry. Now that's an odd thought.

{if PC does not have peppermint candy cum:

Now that you've consumed the cock, you await a sign that something has occurred. But for a while, nothing happened. Needing some sort of confirmation, you take matters into your own hands.

You now grip [pc.largestCock], slowly pumping at it, having it rise to full mast as you await the telltale sign that the mod worked. You begin masturbating, not out of pleasure, but out of obligation to make sure your money was not wasted on a simple candy. Soon, your member is throbbing and pulsing, dribbling [pc.cumColor] pre.

The telltale feeling of pressure builds up in your groin, your cock dribbling more and more pre. But something catches your nose, your pre cum is emitting a minty scent. Within a few more moments, you blow your load, an aroma of mint filling the air around you.

Slowly your cock stops spraying your load, and you sample the seed still on your hand. It tastes just like the goo from the Peckermint! You gladly clean up, before heading out on your way, your balls churning with yuletide spirit.

/if PC has peppermint candy cum:

After fully consuming the thick, long candy cock, you find yourself craving more. You start to pump your already growing [pc.cocks]. Your hands wrap around {if PC has multiple cocks:your largest member/else:your shaft} and begin to pump the familiar minty liquid out of your throbbing length.

A small [pc.cumColor] trickle of your pre-cum drools out of your length and you {if PC's has cock long enough to autofellate:bend over, taking your [pc.biggestCockHead] into your willing mouth, your tongue flicking against your cum slit, lapping up your peppermint spunk/else:run your finger down your head, collecting the thin drop of peppermint cum off your cock, and into your mouth}.

You begin you pump your cock faster and faster, closing your eyes in pleasure as you bring yourself closer to orgasm with each pump of your hands.

Prior to orgasm, you {if PC's has cock long enough to autofellate:take your cock out of your mouth and }watch your cock throb and pulse in anticipation of your load. As soon

as the first rope of cum flies out of your cock, the head of your cock starts to change color, going from [pc.cockColor] to a mixture of red and white, swirling around your length. With each rope of cum released from your length, another chunk of your cock turns to a candy cane color.

Soon, your cock is dribbling the last of it's load and your cock is fully striped red and white, from head to {base/sheath}. You happily clean yourself up and get on your way, your cock full of Yuletide spirit.

Pre Pocket Flag

Concept

Pre Pocket is an flag that can be added when purchasing Boxers, Jockstrap and Male Tights from Busky after having sex with him. Despite being gay you can catch him by surprise, and a bull in need just can't say no.

When the character has full balls every hour a percentage of the pocket will be filled with the PC's precum, dependant on the refractory rate of the PC, however a minimum percentage of 3% per hour will occur. At 100% the Pocket will carry 20,000 mL of precum (a bit over 5 gallons for the imperials reading this).

Your precum per hour is your refractory rate/100.

If you have 100% refractory rate you'll have 3% per hour (due to the minimum)

If you have 5000% refractory rate you'll have 50% per hour

If you have a full Pre Pocket you get a debuff similar to the endowment debuffs, where you will take twice as long to get past a room.

A full Pre Pocket allows you a special crotch tease that stuns the opponent for one turn. and afflicts 20 bonus lust over 2 turns

Full Pre Pocket Crotch Tease

You strut up to [enemy] as you strip off your [pc.armor], you peel off your [pc.underGarments] to reveal a churning pool of precum. After gazing at the soup of virility you swirl your hand in the sexual stew and scoop out a [pc.cumVisc] handful to indulge in. Raising your hand far above your head, you simply let the [pc.cumColor] fluid flow like honey into your mouth. You suckle and shudder at the [pc.cumFlavor] taste. You scoop another handful straight into your mouth, licking your fingers to get every drop.

[Enemy] it taken back by your display of incredible virility, stunned and aroused. You take this moment to close the gap between you and [enemy]. You pull out [pc.eachCock], still covered and drooling with your [pc.cumVisc] prespunk.

"All of this doesn't even amount to the flood I release when I cum normally, so wouldn't it just be better to give in and worship my cock{s}, drink and be filled by my [pc.cumNoun]?" You coax as you stroke your precum covered [pc.cocks].

You end your display of virility by taking the rest of the contents of your [pc.underGarments] and dumping it on your still stunned opponent.

//There weren't any parser tags for an enemy so I just typed [enemy] a crap ton, if anyone knows the parser tag for enemies, give me a heads up

Taking off undergarments with prepocket.

As you take off your [pc.lowerUndergarment] you forget the {if Prepocket is at <30%:small collection of your [pc.cumNoun] collecting in your crotch, most of it falls to the ground. Virection

Maximum Stack: 10

Short name: Virection

Long name: virection pill

Description: a small box containing a single Virection pill

Tooltip: Virection was originally developed and marketed by a company that sold cheap "penis enlargement" scams. Its patent was eventually sold to Tamami corp after it was found to actually work and to even be capable of growing a penis. This product has a constant high demand, suffering through many changes in price and name, like CockUp, Penismightier and the BigD.

The microsurgeons and chemicals in this blue pill are advertised to solve a myriad of problems related to male genitalia or lack of them. It will always grows a penis if its consumer lacks one

and has small chance of growing an extra one if they already have a cock. Otherwise it will increase the length or thickness of a penis or improve their virility.

Type: Transformative Item, single use consumable

Base Price: 8000 credits

Effect: Upon Consumption always try to do three transformations:

- If 0 cock always do "1st Cock".
- If has cock and not maximum number gives a 10% chance of "2nd Cock" or "Grow Another Cock".
- If failure to grow cock or already has 10 cocks do:
 - If any cock is less than 4.1 inches do "Length+Thick" on that cock.
 - Else do either one or more of "Cum Quality", "Cock Length" or "Cock Thickness".

Testesmints

Maximum Stack: 10

Short name: Testesmints

Long name: Testesmints' box

Description: a box of Testemints

Tooltip: This product by Tamami Corp uses hormones and nanomachines to do several testicle-related enhancements. It has been banned by many governments due to the widespread welfare abuses it leads to, examples of which range from men fathering hundreds of children to disability claims due to oversized balls.

Each box is sold with ten mints, guaranteed to make your mouth {if silly:"fresh as the dickens"/minty fresh} and grow at least one ball if its consumer lacks one. If they have at least one ball it has a small chance of growing more balls and if that fails it will either increase their size, their capacity, the refractory rate, how much cum is released during orgasm or the virility.

Type: Transformative Item, single use consumable

Base Price: 1000 credits

Effect: Upon Consumption always try to do three transformations:

- If no balls always does "Grow Balls" tf. 25% chance of being 1 ball only.
- If has balls and not maximum number 20% chance of "Grow Balls" tf. 10% chance of being 1 ball only.
- Else do one of "Ballsize", "Cum Quantity", "Cum Quality", "Cum Capacity" and "Refractory Rate"
