

SI: Opportunity to take your business to another level

Hey Drew,

I was scrolling through my Instagram until I found an affiliate of yours.

It caught my eye how you, unlike other people that offer workouts and a diet plan, are giving recipes for smoothies with fruits and vegetables and beneficial nutrients that replace some meals, I am sure your audience appreciates it.

I've you are currently not running any advertisements on Instagram, running ads raises brand awareness which allows more people who use social media to acknowledge your business and potentially interact.

I have made an Instagram caption for an advert below. This would benefit you by raising your business's awareness and allowing people to find out about your business.

Instagram caption advert:
