1

2

A grid of dots representing a 5x20 array. The first four rows are complete, each containing 20 dots. The fifth row is partially filled with 8 dots, starting from the left.

6

A diagram consisting of five rows of dots. The first four rows each contain 20 dots, spaced evenly. The fifth row contains 8 dots, starting from the left and leaving a gap of 12 positions before the next dot.

4

A 10x20 grid of dots. The dots are arranged in 10 rows and 20 columns. In the 5th row, the 8th column is empty, while all other positions in the grid contain a dot.
