

The Green Screen Club

2023-24

*** This club was made possible by **The Port Washington Ed. Foundation**.
We are so thankful for their support!!*

Green Screen Club Students worked hard to produce some amazing videos! They got up early to meet twice a week before school for several months! They selected their topics and did their own research, script-writing, editing, and video design/production independently or in a small group.

Great Job Green Screen kids!!!!
