

## **Year 12 Language**

### **Introduction to English Language**

#### **ESSAY TO SUBMIT IN SEPTEMBER:**

#### **Question: How does technology affect the way you use language?**

Write a 250 word essay about:

- ▢ The electronic technologies YOU use to communicate (such as Snapchat, WhatsApp, Facebook and email) and why you use them (50 words)
- ▢ How they affect the language you use, both spoken and written, and whether you use different language and different technologies with different people (such as your friends versus your parents) - and why (200 words)

Your essay can be handwritten or it can be typed and printed. We want your personal response in your own words, drawing on your own knowledge and experience. You don't need to do any additional research (unless you want to!). Bring your essay to your first English Language lesson.

We look forward to meeting you in September.

Ms McLean

Head of English
