

Commission Information

To make it in you must message/note me, and have the payment up front in full.
Before noting, please make your final choice of what you want, as well as the payment ready. If you are unable to pay, then please hold off now. Your consideration is very kind. Thank you!

Payment is via [PayPal](#), or via Steam with [Team Fortress Keys](#)* or [Unusuals](#) too!
*(TF2 keys can be bought on the Steam Market or [Marketplace](#)).

More details about payment may be discussed in messages.

What I specialize in: Inflation, balloons, bubbles, bubblegum, inflatables, latex, rubber kinks, balloonies, Transgender works, Futa/herm, Pin-up, niche inflations, niche inflatable interests, and more!

-There are *some things I CANNOT do or am not willing to do*. I am not here to judge what your interests are.

-Not willing to do any of the following:

Any water sports or scat, age-play/diapers, hard vore, gore, or anything illegal such as underaged characters.

-Feet, non-anthro, and a few other things are 'if-y' to me, and must be discussed personally to see if I can or should do.

-There will not be a set date of completion. This is due to life and if unseen events occur. I will not waste time though. If anything happens, I will alert you.

-No matter what, **I will finish them.**

-Only one commission at a time. Making multiple pieces makes it harder for others to get their piece done in a timely manner.

-I can only take so many at a time, so if you miss the period, you can get in next time first. I cannot guarantee, but I can try.

-With commissions, only some models are available for me to use as some creators do not allow using for profit or commercial use.

-If you do wish to post or repost my work on your account or on another site, **PLEASE** notify and credit me. A link to me is an acceptable form of credit.

-Original Characters are available at the moment if you can provide a pre-existing model. My abilities are limited, and I do not wish to cost you extra for creating such unless there is a base.

[More NSFW models can be found on <https://smutba.se>]

If there is a model that you link to, you can link it to me. The only rules are by the model's creator. I have other models, but they can not be used for NFSW.

If you wish for SFW creations, I am very able to do such as well!

Thank you! Hope you have a wonderful day/night!
