Research proposal

International Doctoral Program in Global Health,
Humanitarian Aid and Disaster Medicine

Università del Piemonte Orientale

How to use this template?

All text highlighted in yellow should be deleted and substituted with the content of your proposal following the instructions.

The proposal should be no longer than 10 pages (including the bibliography).

The file should be saved as pdf, renamed as 'name_surname_proposal' and submitted along with the necessary documentations.

TITLE

Name and surname

Email

Thematic area, from those suggested in the call for proposals:

Project summary

A one-page project summary, briefly presenting the details of your proposal.

I. Rationale and background information

Background

Explain the importance of your topic with references.

Problem statement

State the problem that you are trying to solve with this research proposal with references.

II. Objectives

General study objectives

The main study objectives.

Specific objectives

The sub-objectives of your study.

III. Methods

Study design

Detail the design of your study with all steps/phases.

Population and sampling strategy

Detail the population/measuring unit that you are targeting with this study.

Data collection (tools and procedures)

Detail all tools and/or procedures you will be using to collect data.

Data analysis and management

Detail how you are analysing and managing your data.

IV. Ethical considerations

Detail all ethical considerations and possible ethical implications of your study.

V. Estimated budget and funding

Present a tentative budget and resources needed for the project.

VI. Sustainability, estimated timeline, deadlines, and milestones

Detail the expected timeline of your study.

VII. References

State the references you used for this proposal.

VIII. AI use statement

Applicants who have used artificial intelligence tools in the development of their project, in the production of images or graphics, or in the collection and analysis of data, are required to explicitly declare their use, indicating the AI tool, its scope, the search queries used, and the date of use, in order to allow for reproducibility and verification.

The Applicant guarantees the originality of the project and that he or she is its sole and exclusive author.

OR

If artificial intelligence tools were used in the development of the project, the Applicant declares their use and purpose by inserting a paragraph containing a "Statement on Artificial Intelligence and AI-assisted Technologies" at the end of the text.

"During the preparation of this project, the Applicant used [TOOL/SERVICE NAME] on [DD/MM/YYYY] using the search terms: [SEARCH TERMS] for the purpose of [REASON].

After using this tool/service, the Applicant has reviewed and modified the content as necessary and assumes full responsibility for the content of his/her project."
