

Introduction

This is a place where you can document your process as you write! Make sure that each step of the way is clearly shown here. You should show your own original thinking, ideas from AI tools, and links or disclosures about where your ideas came from.

The process is clearly shown below, step by step.

Step 1 - Ideation

Instructions	AI Expectations
Ideate your first ideas alone or with a peer by having a conversation. Document your ideas in the box below.	Without the use of AI, Students Think Alone

--

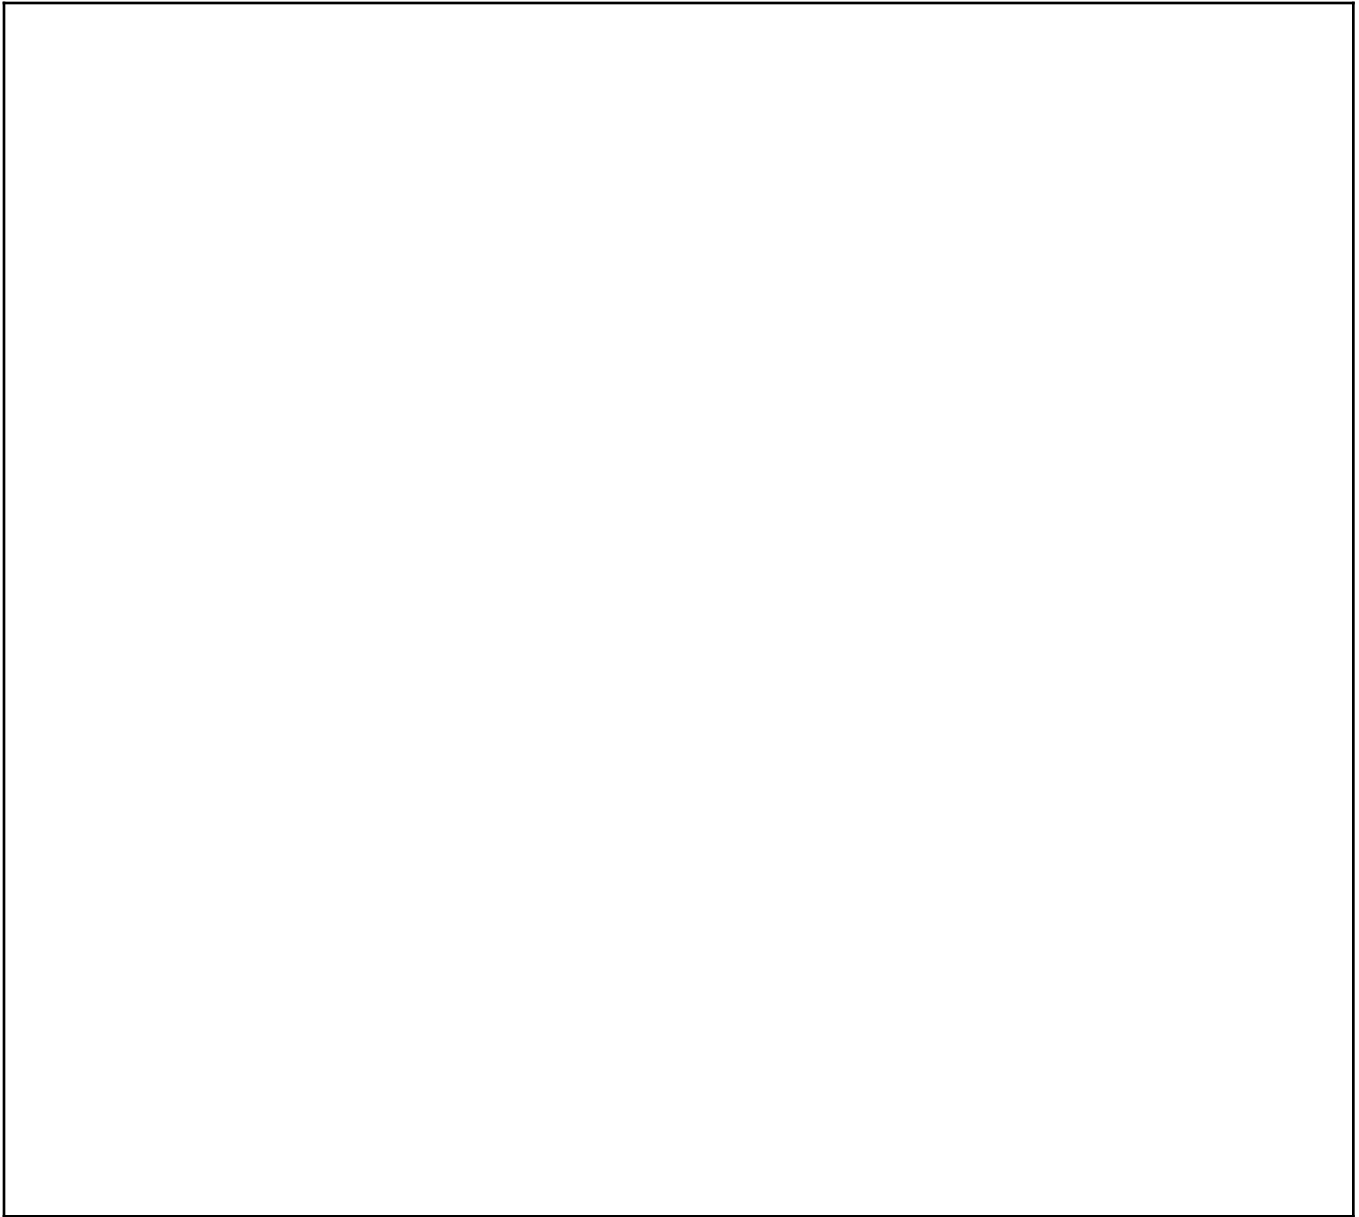

Step 2 - Evaluate

Instructions	AI Expectations
Evaluate your ideas alone or with a friend, discuss your ideas. Then, feed your current ideas into this bot from the teacher and generate additional ideas. Evaluate the ideas from the bot with your friend: is it accurate, biased, or helpful? Document new ideas with a screenshot or copy of your chat in the box below.	AI Supports Plans

New Ideas:

Step 3 - Draft

Instructions	AI Expectations
Choose one idea from yourself, AI, or a combination. Draft your work alone by writing below.	Without the use of AI, Students Think Alone

Step 4 - Revise

Instructions	AI Expectations
Revise with a peer, show your draft to the bot the teacher provided. Discuss with your peer what feedback was valuable and what wasn't. Adjust your work accordingly. Document feedback and adjustments copying and pasting the chat.	AI Supports Ideas

Peer's name:

What did you discuss that was valuable from AI?
