

Dear Stone Bank Families,

We are writing to inform you of an important change to the structure of our upcoming 5K-5th grade Summer Soar program. If you have a middle school student signed up, watch for that information by the end of next week.

After reviewing elementary enrollment numbers, we discovered that the originally planned class groupings resulted in uneven distribution of students across classes. To create a more balanced and enriching experience for everyone, we will be making the following adjustments:

- **All students will rotate through the four advertised summer school classes (Art Adventures, Gym Games, Friendship Fun, & Summer STEM Academy),** rather than just the three for which they originally registered.
- Students who registered for **Learning Lab** will receive daily instruction for 20-30 minutes within the Summer Soar afternoon. The Learning Lab time will rotate, so that students will not miss time out of the same class every day.
- Students will be grouped as follows:
 - **Group 1:** Students entering 5K–2nd grade (5K/1st combined, 2nd)
 - **Group 2:** Students entering 3rd–5th grade (3rd, 4th/5th combined)
- Each class is **one hour long and will alternate every other day within the Summer Soar afternoon.** (See the calendar below.)

The new format will enhance the experience for all students and help our staff address the needs of each age group more effectively; we appreciate your flexibility and are here to answer any questions you may have.

Sincerely,
Dawn Preisler
