Assignment 2: Generating Solutions (15%)

Let's say we finally understand the root cause and source of a problem - the impulse then becomes to focus on the first / immediate solution rather than explore all potential solutions exhaustively. The purpose of this assignment is to gain experience in developing creative and innovative solutions to the problem you explored in your first assignment.

What you need to do

- Review your feedback from Assignment 1.
- Review the generating solutions PPT resource.
- Apply three (3) problem-solving techniques to develop creative and innovative solutions to the problem you addressed in your problem definition assignment 1

This activity is focused on generating creative and innovation solutions. Evaluation of the solutions should NOT be completed as part of this assignment; however, applying three (3) generating solution techniques to come up with plenty of creative ideas given your depth of understanding of the problem is required to achieve full marks.

You can submit this in any format you like (video, audio, document, animated video etc.) so long as the rubric requirements are met, and I can understand and see your process.

Grading

15.0 – 12.5	***12.4 – 10.0***	***9.9-7.5***	***7.4 – 0.0***
Excellent, rock-star approach to generating creative and innovative solutions ***20+ creative solutions developed*** ***At least three (3) techniques applied*** ***APA citation completed accurately and completely*** ***At least three (3) external sources referenced***	***Great approach to generating creative and innovative solutions*** ***18-20 creative solutions developed*** ***At least three (3) techniques applied*** ***APA citation completed accurately and completely*** ***At least two (2) external sources referenced***	***Good approach to generating creative and innovative solutions*** ***10-15 creative solutions developed*** ***At least three (3) techniques applied*** ***APA citation completed accurately and completely*** ***At least one (1) external sources referenced***	***Weak approach to generating creative and innovative solutions*** ***Less than 10 creative solutions developed*** ***Less than two (2) techniques applied*** ***APA citation completed incorrectly or missing*** ***No external sources referenced***
