

Oppnergy Level 2 Curriculum (Revised)

Last updated: 04/10/2024

Introduction

Congratulations on reaching Level 2 of Oppnergy's tiered system! This level builds upon the foundation laid in Level 1 and equips you with the skills and knowledge to become a valuable contributor to Oppnergy's mission. Through a combination of workshops, project-based learning, and mentorship opportunities, you'll develop your expertise, leadership potential, and ability to collaborate effectively on impactful projects.

Learning Outcomes:

- Enhance teamwork and collaboration skills, including conflict resolution and negotiation.
- Develop project management techniques and leadership capabilities.
- Analyze successful projects addressing UN SDGs and identify transferable skills.
- Craft clear and actionable project plans for achieving Oppnergy's goals.
- Refine existing skills or explore new areas relevant to your chosen field within Oppnergy.
- Mentor Level 1 members and contribute to the Oppnergy knowledge base.
- Develop compelling project proposals to secure funding and resources.
- Design projects, acquire resources, and effectively communicate progress and impact.
- Master the art of pitching ideas and advocating for Oppnergy's initiatives.
- Conduct effective market research and validate project ideas.
- Demonstrate professionalism in all interactions and contributions.

Course Modules:

Module 1: Advanced Teamwork and Leadership (20% of Time)

- **Deep Dive into Collaboration Strategies:** Techniques for effective collaboration in complex projects, including conflict resolution and negotiation.
- **Team Dynamics and Roles:** Understanding team roles, building a positive team environment, and identifying your strengths within a team.
- **Project Management Fundamentals:** Setting goals, establishing timelines, managing resources, and delegating tasks effectively.
- **Leadership Development:** Cultivating leadership skills that inspire and motivate others.

Module 2: Project Design and Implementation (20% of Time)

- **Case Studies with SDGs:** Analyze successful projects that addressed SDGs. Learn from real-world examples and identify transferable skills.
- **Goal Setting and Project Planning:** Develop SMART goals and translate them into actionable project plans with clear milestones and deliverables.
- **Market Research and Idea Validation:** Understand how to conduct market research to validate project ideas and ensure their feasibility.
- **Project Documentation:** Learn best practices for documenting project plans, progress reports, and final outcomes.

Module 3: Expertise Development and Contribution (20% of Time)

- **Developing Your Expertise:** Refine existing skills or explore new areas relevant to your chosen field within Oppnergy's focus areas.

- **Mentorship and Knowledge Sharing:** Opportunity to mentor Level 1 members and contribute to the Oppnergy community's knowledge base through workshops or presentations.
- **Professionalism in Action:** Develop and demonstrate professional communication, etiquette, and work ethic in all interactions.

Module 4: Project Pitching and Resource Acquisition (20% of Time)

- **The Art of Pitching:** Craft compelling narratives, deliver impactful presentations, and handle questions and objections effectively when pitching project ideas.
- **Project Proposal Development:** Learn how to write persuasive project proposals that secure funding and resources for Oppnergy initiatives.
- **Resource Acquisition Strategies:** Understand different methods for acquiring resources, such as grants, sponsorships, or in-kind donations.
- **Effective Communication for Impact:** Master the art of communicating project goals, progress, and impact to diverse audiences, including donors, stakeholders, and the broader community.

Module 5: Leveraging Oppnergy's Network (20% of Time)

- **Networking Strategies:** Develop strategies for building stronger connections with Oppnergy members and external partners to expand project reach and collaboration opportunities.
- **Building Strategic Partnerships:** Identify potential partners with complementary skills and resources to enhance project impact.
- **Leveraging the Oppnergy Community:** Learn how to utilize Oppnergy's platform and resources to connect with mentors, collaborate with other members, and access valuable support.

Assessment:

- Active participation in class discussions, workshops, and group projects.
- Completion of individual assignments, quizzes, presentations, and case studies.
- Development of a project plan or proposal.
- Successful delivery of a project pitch.
