

Workshop Title

“Teaching of Integral Transform Methods.”

Speaker: Prof. Asad A. Abidi

Distinguished Chancellor’s Professor

(University of California, Los Angeles, USA)

Date/Time: September 05, 2022

2:00 PM - 4:00 PM

Abstract

"The scope of the talk is to unify the development of Fourier, Laplace, and z transforms, with illustrative examples taken from Electrical Engineering. These techniques are rich and apply to physics as well."
