

Mask & Materials Drop Off Locations

Drop Off Procedures: Place completed masks or donated materials inside the appropriate donation bin. If the bin is full or overflowing, please contact a group admin, do not leave materials unless the stuff fits in the bin, completely.

If you would like to package your masks for donation, paper is indicated as being a lower risk material for virus transmission.

Please wash or sanitize your hands before and after dropping off materials or masks.

If someone is already at the bins, please wait for them to finish drop off, in order to maintain safe social distancing. Thank you!
