

KILLSWITCH

Killswitch, Unplug
I bet you're thinking I'll just give up
And let it sink in
Turn off if you want to, I just want to know your name
I'm not sure, can you confirm this once more
Because its not printing
Highlight the dotted line, would love it if you e-signed
Just one more answer I'm looking for
Just hold that thought and

Close it if you want to, but I'll be on the inside

On your side

Just Close it if you want to, but I'll be on the inside

Turn off if you want to, I just didn't catch your name
Just before you go repeat it once more
I'll have to ask you
To authorise twice, and I'll do it for a great price
That's for sure, can you confirm this once more
Because its not printing
Just Close it if you want to but I'll be on the inside

Just close it if you want to, but I'll be on the inside

On your side

Just close it if you want to, but I'll be on the inside

On your side

Close it if you want I need the name of your first pet

What's your mother's surname before your folks first met?

Point out all the traffic lights or all the squares with bikes

Show us your card, the three digits on the other side

On your side
