

# Going Public Sign Up Sheet

Once you have completed final edits, schedule a time with me so that I can help you move your article into the main space. Once you've signed up for a time slot, I will be sure to read your article closely and make some friendly edits as needed to help you get it ready to go.

- You can plan ahead and schedule your time slot as you continue editing.
- Multiple people can sign up for the same time slot. It often helps to have more than one example to view.
- I will leave some time slots blank. If the times offered don't work, suggest three alternative options. I can meet evenings and weekends too.
