Fråga:	14/1 - 2025. Vilka roller kan bibliotekarier ha idag oh framöver?		
Söktermer:	Sökning i EBSCOhost LISTA, ERIC och Teacher Reference Center på engelska 2014-2025, engelska, peer reviewed, inget spec. sökfält.	"information professional role" OR "information professional roles" OR "roles of information professional"	"librarian role" OR "librarian roles" OR "role* of librarian*"
Träffar (i urval):	317 varav 15 första relevanta FÖRUTOM träff nr 5 som handlar om könsroller bland bibliotekarier. En likadan sökning i LISA gav initialt 0 träffar		

	med "felmeddelande" om att användningen av citattecknet i frassökningen var felaktigt använd. Här verkar alltså LISA vara mer känslig än vad ERIC är. En UPPDATERAD sökning gjordes i databasen LISA (ProQuest): noft("librarian* role*" OR "information professional* role*") vilket resulterade i 1717 träffar. Ytterligare sökning med tillägg av fler synonymer och operatör OR: noft("librarian* role*" OR "information professional* role*" OR "role* of librarian*" OR "role* of information professional*") vilket resulterade i färre träffar - nämligen 312, varav de 15 första förutom 2-3 st träffar tycktes relevanta.

	Sleep Time Duration Does Not Affect Oral Inflammation and Periodontal Health Status in Night-Shift Workers: A Cross-Sectional Study (Retracted)			
Reflektioner:	För få träffar, handlar oftast om något annat än just oral hälsa, en av de "bästa" träffarna är en artikel som har blivit avpublicerad.			

Ny Fråga:	Vilken inverkan har nattarbete på den orala hälsan?	
Söktermer:	(night shift OR shift work schedule)	AND (dental OR periodon* OR caries OR tooth)
Träffar (i urval):	The Risk of Night Shift Workers to the Glucose Blood Levels, Saliva, and Dental Caries	
	Impact of Long Working Hours and Shift Work on Perceived Unmet Dental Need: A Panel Study	
	Factors Associated with Untreated Decayed Teeth in Male Sales Workers: An Internet Survey	
Reflektioner:	Om jag lägger till "oral" får jag många träffar om studier om saliv som egentligen tittar på andra aspekter av nattarbete, inte just orala hälsan.

Jag utförde även sökningar i Web of Science. Här valde jag sökfält Topic och sökte med den enkla söksträngen librarian* role* och fick 4000+ träffar.

Jag valde ut de 5 artiklar som var "highly cited papers" varav en var bekant från tidigare sökningar: "[The Covid-19 'infodemic': a new front for information professionals](#)" Med tanke på den stora händelse som pandemin var och de spår den satt är det inte konstigt att denna artikel förekommer och är välciterad. Artikeln "[Exploring the function and effectiveness of knowledge brokers as facilitators of knowledge translation in health-related settings: a systematic review and thematic analysis](#)" upplevdes intressant och innehöll en "ny" roll, nämligen knowledge broker/s.
