

FAQ

Q: What is an Amazon Wishlist?

A: A wish list is a virtual shopping list provided by Amazon that shows items that an individual or couple would like. In this case, it would be our teachers and staff members that oversee a group of paraprofessionals at our school. Students and families can then search for the specific list and purchase an item from it, confident that they are buying something the teacher/support team wants and/or needs.

Q: What happens when I purchase something from an Amazon Wishlist?

A: When someone purchases something on another person's wish list, **that item is shipped to Parowan Elementary and given to the wish list individual.** The PTO will be sent an alert to their email when something on a teacher's list is purchased. Items that have already been purchased, will remain on the list so individuals can see what has already been given.

Q: Do people know when you view their Amazon Wishlist?

A: No. **Neither the PTO or the teachers** are able to see who views their page.

Q: Can you cancel an order you purchased on Amazon Wishlist?

A: For the first 30 minutes* after the order is placed, buyers can cancel their own order using the Cancel Items button located in **Your Account > Your Orders on Amazon.** After 30 minutes, the buyer can no longer cancel the order directly, they can only submit a cancellation request for the seller to review **if the seller allows it*.**

****Please make sure you look for the seller's and Amazon's rules. The PTO, nor Parowan Elementary are responsible for accidental or uncanceled purchases.***

Q: Can I mark the item purchased on the Amazon Wishlist if I bought it from another store?

A: Yes. To mark an item as purchased, **select the, “Buying this elsewhere” link next to the item and follow the instructions in the pop-up.** You can then drop the item off to the front office. Please let them know who it is supposed to go to.
