

Best Magazine: Dracus

Dracus was created 9 years ago as a quarterly magazine specializing in encouraging and promoting young/aspiring writers in the SF&F&H field. It is issued semi-annually since 2019. Every issue usually contains 5 to 10 short stories from Bulgarian writers, 1 to 4 classical works (foreign or Bulgarian), poetry and quoted newly published books. In parallel with the magazine the publisher also issues book series "Dracus Collection", with 28 issues already published, and issue #29 currently in the works. The

team behind "Dracus" magazine organizes regularly contents for fiction short stories and publishes as part of "Dracus Collection" series the winners of the contest. The magazine and its publisher - Yavor Tsanev from *Gayana Book&Art Studio* - also support genre-oriented short stories contests in Bulgaria and initiatives like *Stories from Another Time*, which brings Bulgarian genre authors reading their short stories live.
