

How to have FFD pay for a Vehicle Inspection/Repair

- **Make an appointment with a State of Maine Vehicle Inspection Garage**
- **Get a complete, itemized written estimate. This must have all estimated costs, including the cost of an inspection sticker, to make your car pass inspection.**
- **Give the estimate to your FFD Coach**
- **Your FFD Coach will submit a request for your vehicle to be repaired/inspected**
- **Your FFD Coach will let you know if it was approved or denied.**
- **If it is approved, make an appointment with the garage for repairs to be completed.**
- **Payment will be made directly from FFD to the Garage.**

Important things to know BEFORE you request funding:

- *Your Coach will need a copy of your valid Driver's License*
- *Your Coach will need a copy of your valid vehicle registration*
- *Your Coach will need a copy of your valid insurance card*
- *You will need to make more than one trip to the garage*
- *FFD reserves the right to request a second estimate, if the costs seem extensive*
- *Any repairs are for the purpose of making your vehicle pass a Maine State Inspection. Some repairs cannot be funded (for example air conditioning, sound systems, etc.)*
- *FFD does not guarantee all funding requests will be approved*
