

The ethics issue: Should we impose population controls?

YES	NO
Neru: Yes, we should, people are using too much food/water, people can't buy the things they need, too many places are being packed, money has been getting a real problem for Mothers/Fathers, I think we should. Also, lots of power is being used.	Neru: No, we shouldn't, it's wrong to kill innocents, JUST because of overpopulation, imagine how the media is going to react to this? This is wrong for anyone who sees the eyes of racism, especially if the person they kill are, black, or, chinese, for example: If they're black, and kill them, black people might be mad. It's just wrong to do such awful things, people just want to live a normal life... so I think we shouldn't.
Arie: I do think that overpopulation is getting out of control and that we do need to do something about it	Arie: but how would we choose who to kill
Joey: We should give some people in prison a second chance before we kill them.	Joey:we shouldn't kill people it's wrong to. imagine if you were killed because of overpopulation
Leo: Yes, we should, there's lots of bad people so they should go.	Leo: I think we should not keep people alive.
