

## Preparing to Play with Us.

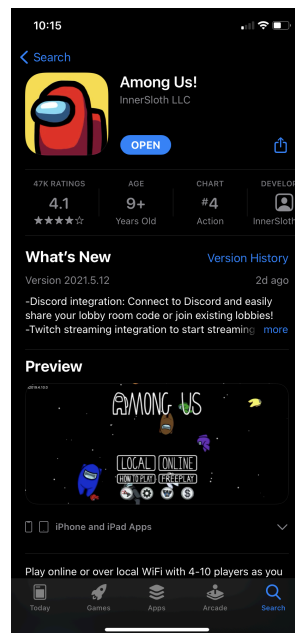

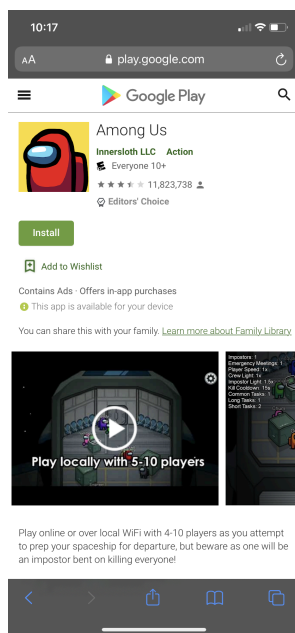

You will need 2 devices.

1. The first is to join the Zoom Meeting
2. The second will have the game Among Us downloaded and set up ahead of time.

I will have Zoom set up on my laptop and Among Us on my phone, but you can use any 2 devices that work well for you.

Bring a drink or some snacks. We will chat in small groups while we play.

## How to get Among Us

Among Us can be downloaded for free on iOS and Android devices from the Apple App store or the Google Play store.

It is popular enough that there are a number of knock-offs, so be sure to check that you are downloading Among Us by Inner Sloth LLC

If you would like to download the game onto a different device you can find instructions here

<https://innersloth.com/gameAmongUs.php>

It is not free to download to Nintendo Switch or Windows PC.

## Orientation

No experience required!

You can play as a guest or create an account. Creating an account will allow you to move settings and stats across devices, but has no impact on game play.

The game is fairly simple to learn and some of you may want to try it out before playing with others. There is a How To Play tutorial on the main screen. Once you have read through it you can experiment with tasks and movement in the Freeplay mode before joining live games. In Freeplay mode the laptop in the cafeteria can be used to try out the Impostor Role. Go up to the laptop and click it, then click the red folder.

If you have questions about how to play or challenges in the game, you room hosts will be happy to support you.
